(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Group discussion

Faculty Name: Naga Kalyani A

Class / Semester: III – I A, B

Academic Year: 2020-2021

Subject Name: SE LAB

Topic: Regularly

Brief Write-up (Not exceeding 200 Words)

We have divided the class into team. Each team is consisting of 5 members.

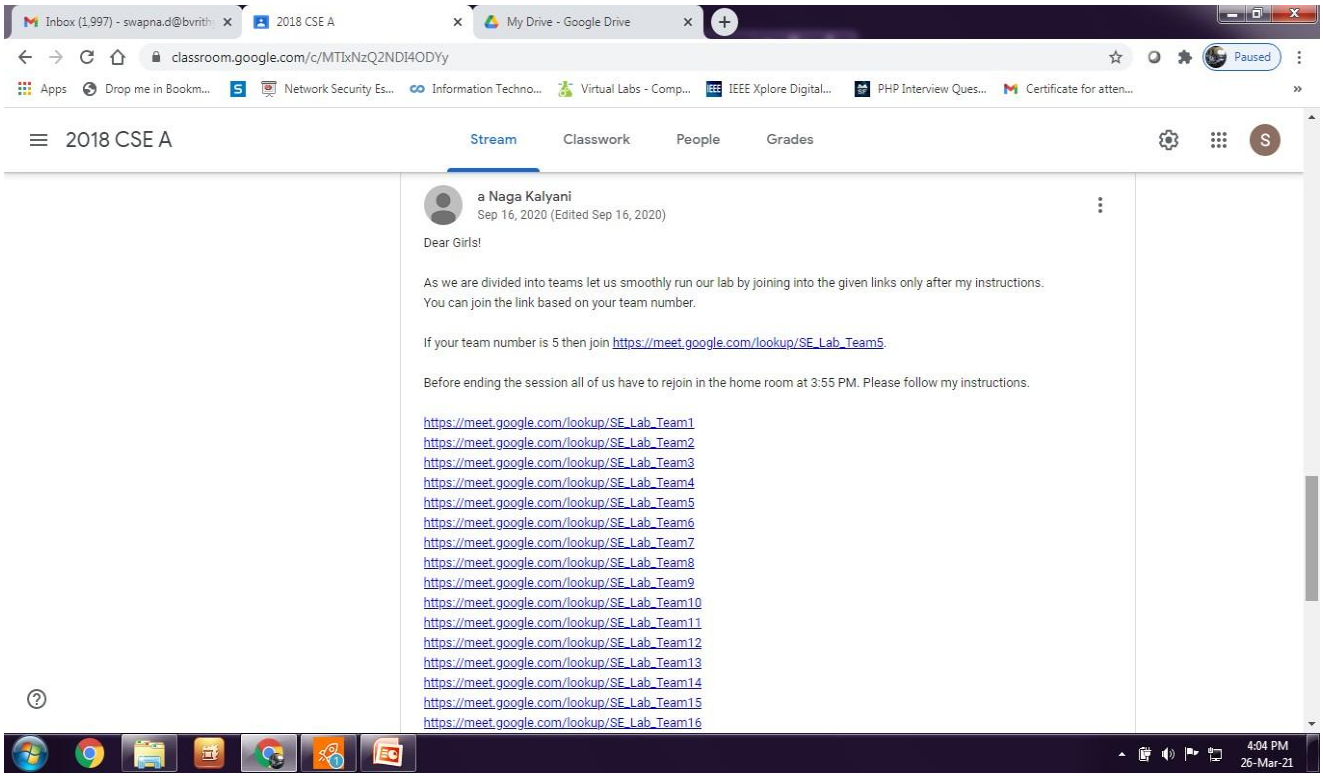

We have implemented our regular Software Engineering lab in Group discussion in G-MEET.

We will be moving each team to a Group discussion where the students will get a space to coordinate and work for executing the problems statement, SRS, Designs, etc. We have used the same rooms for taking reviews.

Objective:

Objective of using Group discussion allows students to work in teams virtually. It provides a platform to interact with the faculty and their team at a time.

Dear Girls!
As we are divided into teams let us smoothly run our lab by joining into the given links only after my instructions.
You can join the link based on your team number.
If your team number is 5 then join https://meet.google.com/lookup/SE_Lab_Team5.
Before ending the session all of us have to rejoin in the home room at 3:55 PM. Please follow my instructions.

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Animation

Faculty Name: Ms. D Swapna

Class / Semester: III/I CSE-B

Academic Year: 2020-21

Subject Name: Computer Networks

Topic: Go-Back-N Sliding Window Protocol

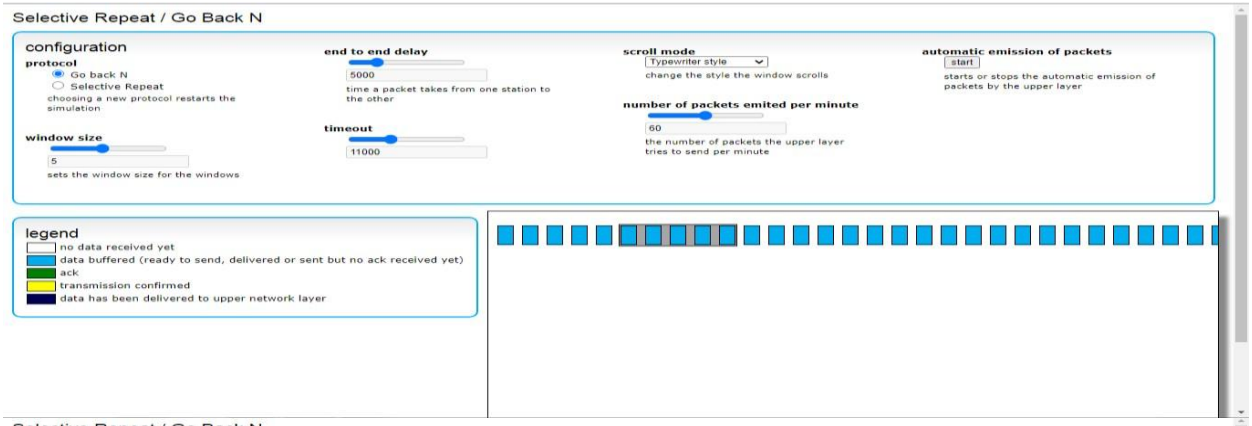

Brief Write-up (Not exceeding 200 Words):

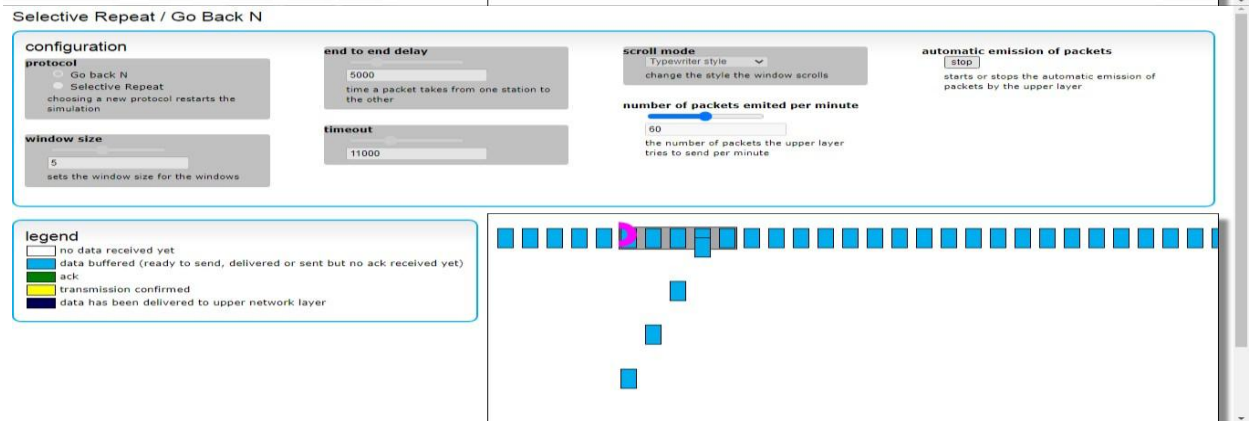

The concept is explained in the classroom. Later for clear understanding the step by step procedure is shown in the animation. This animation shows how the packets are sending by the sender and acknowledgements are received by the receiver.

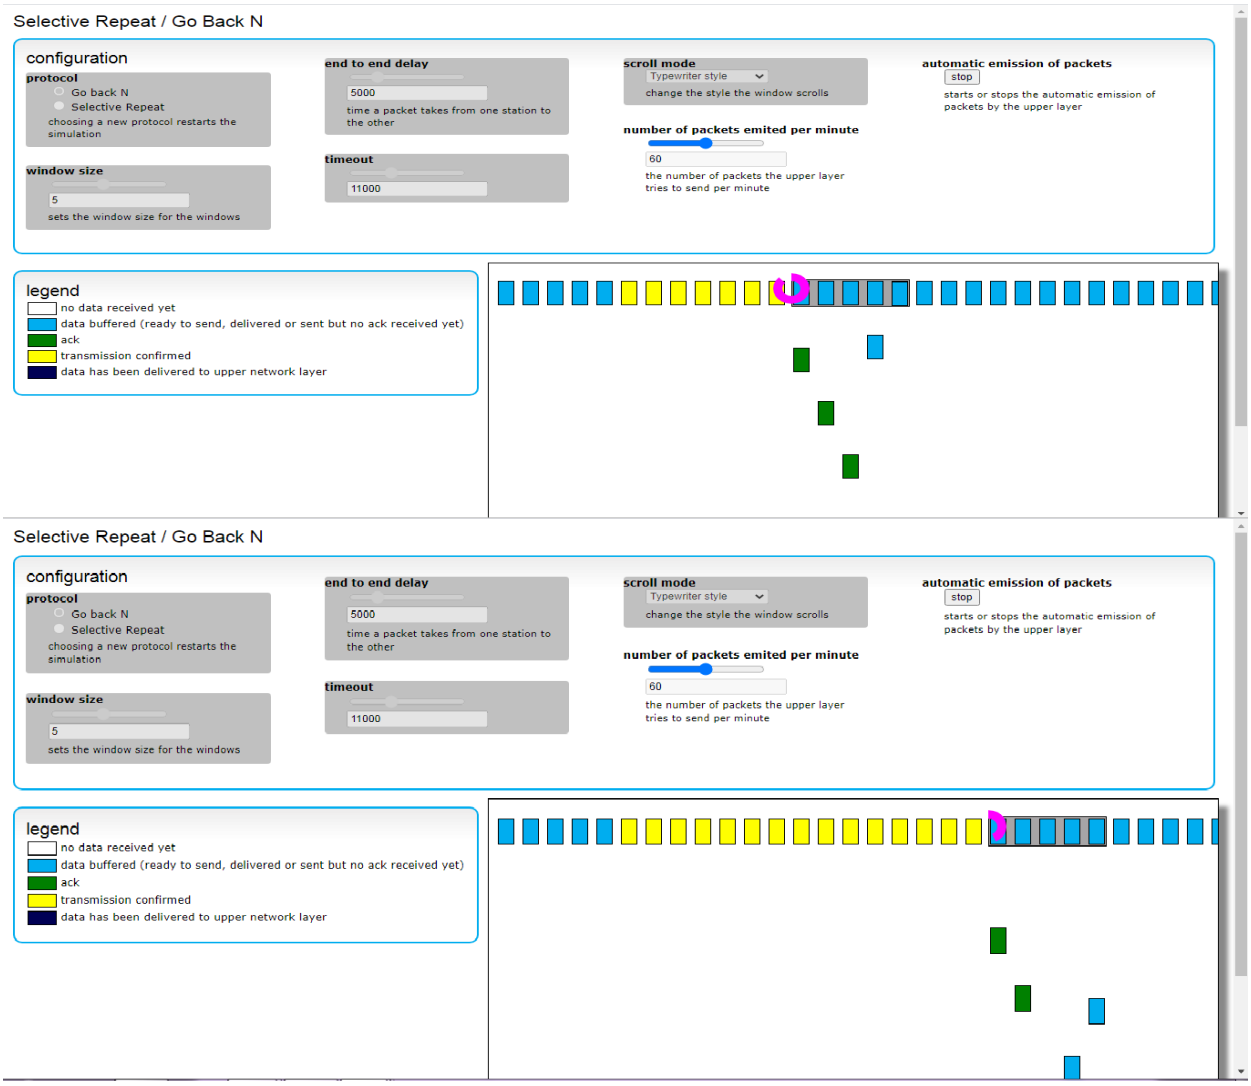

Objective:

1. To understand the operation of Go-Back-N Sliding Window Protocol.
2. Students can visualize the working of Go-Back-N Sliding Window Protocol

Photographs:

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Mind Map

Faculty Name: Ms.D Swapna

Class / Semester: III/I CSE-B

Academic Year: 2020-21

Subject Name: Computer Networks

Topic: Network Topologies, Guided Transmission Media, Network Software, OSI Reference Model, TCP/IP Reference Model, Types of Transmission Media

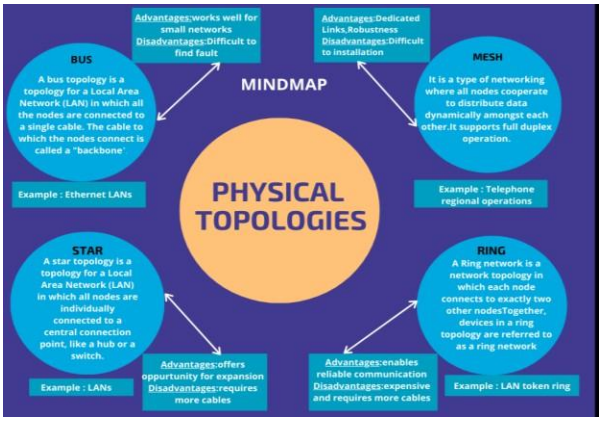

Brief Write-up (Not exceeding 200 Words):

Students are given concepts and asked to form a team with 6-10 members. Each team is assigned a concept to draw a mind map and give the presentation in the class. Mind map is used to visually organize information and shows relationships among. It is often created around a single concept, drawn as an image in the center of a blank page, to which associated representations of ideas such as images, words and parts of words are added. Mind map helps students to easily memorize and recollect the concept.

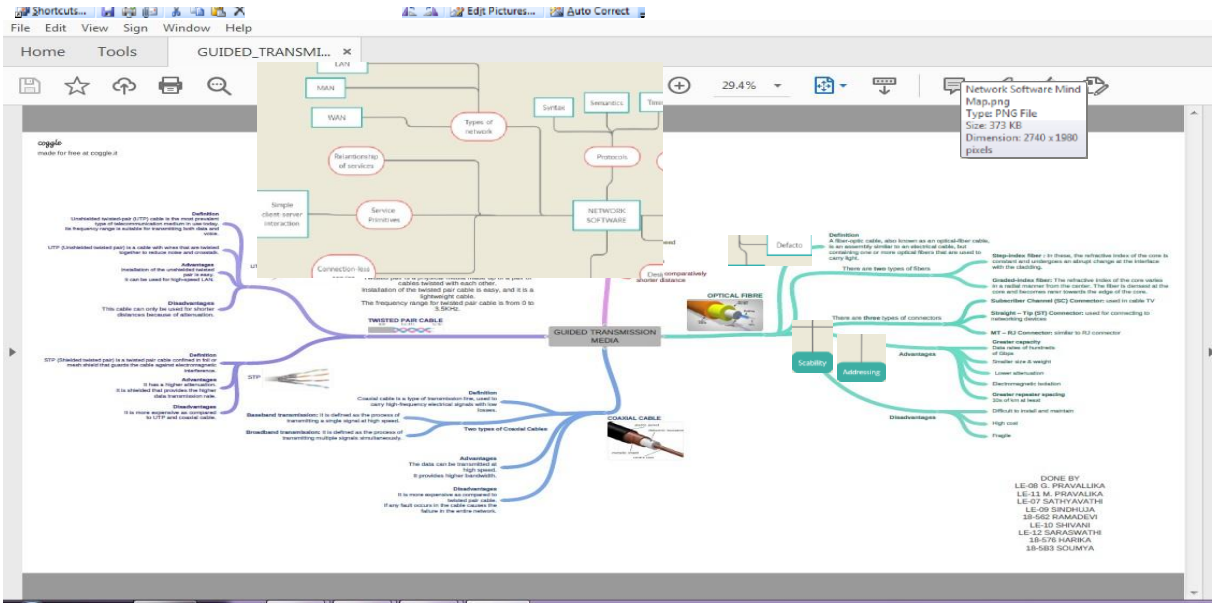

Objective:

1. To assess the understanding levels of students.
2. To improve the organizing ideas and memorization.

Name of the Activity: Crossword Puzzle

Faculty Name: **Dr. G. NagaSatish**

Class/Semester: **III/I CSE A**

Academic Year: **2020-2021**

Subject Name: **Information Retrieval**

Systems Topic: History of Indexing

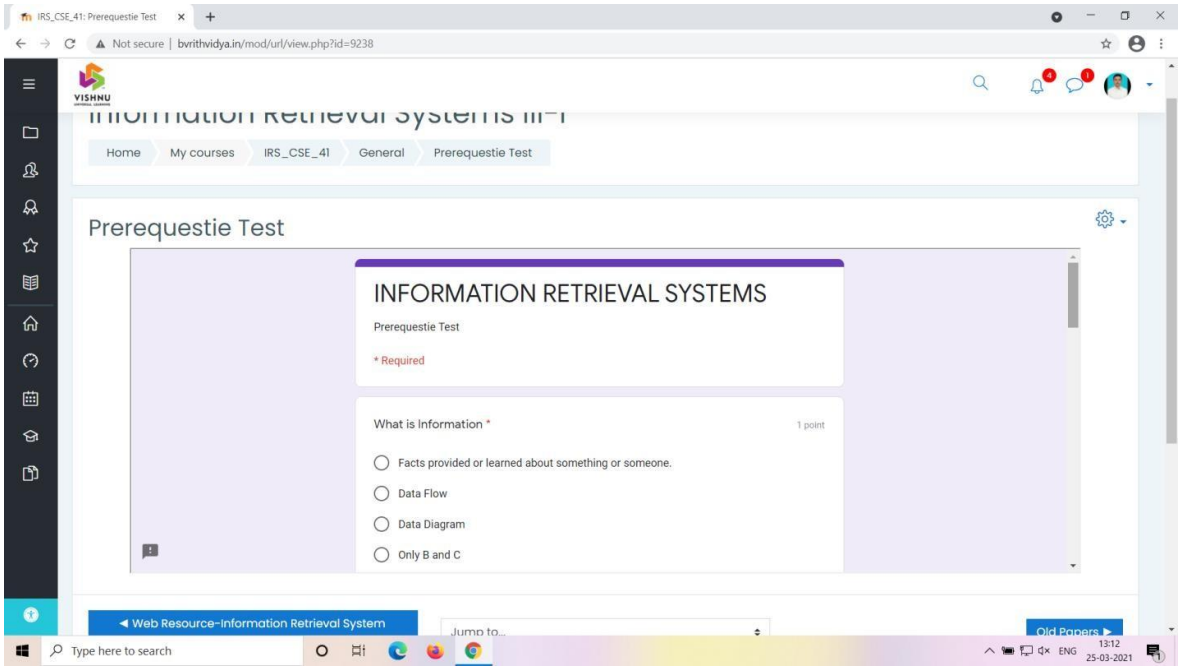

Brief Write-up (Not exceeding 200 Words)

These can be given on paper, in a Google Form

Objective:

Students can be habituated to explore content to know more by identifying about subject

Photographs:

For any queries, please contact to below mail

nagasatish.g@bvrithyderabad.edu.in

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Correcting the Data

Faculty Name : **Dr. G. NagaSatish**

Class/Semester: **III/I CSE B**

Academic Year: **2020-2021**

Subject Name: **Data Analytics**

Topic: Missing Imputations

Brief Write-up (Not exceeding 200 Words)

Time to open up your laptops. People are sub-divided in 3 – 4 sub groups and they are given a Data Set (like removing missing values, sorting the data, etc). They have to perform the task with minimum number of iterations.

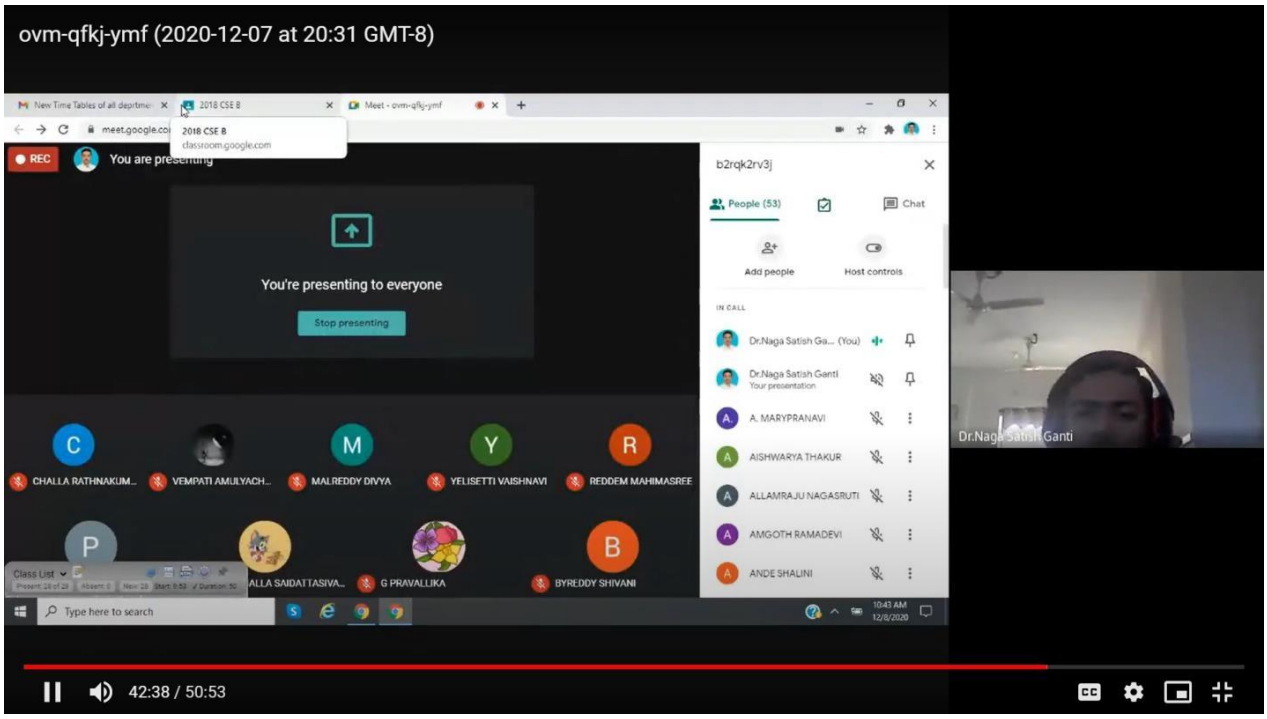

Rule 1: Each team has a maximum of 15 mins to write the code.

Rule 2: The code evaluation should happen on the same machine for all the teams

Objective:

To understand the grasping level of students regarding topics learnt and understand the speed of content delivery.

Photographs:

For any queries, please contact to below mail

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: A Grade Nudge

Faculty Name: Dr.L.Lakshmi

Class / Semester: II-I

Academic Year: 2020-21

Subject Name: Data Structures Lab

Topic: Data Structures Lab Programming exercises

Brief Write-up (Not exceeding 200 Words)
Student Perspective:

- A lot of students are terribly optimistic about the grade they'll be getting in course.
- They start out imagining that they're going to do very well.
- When they miss an early assignment or get a grade lower than what they expected on the first assignments, they tell themselves there's plenty of time to recover.
- It's often too late with only a small percentage of points left to earn in the course.

Faculty Perspective:

- For teachers, the question is how to motivate students to complete the tasks in stipulated time.
- How to make the students complete the given tasks
    - Lab experiments
    - Assignments

Objective:

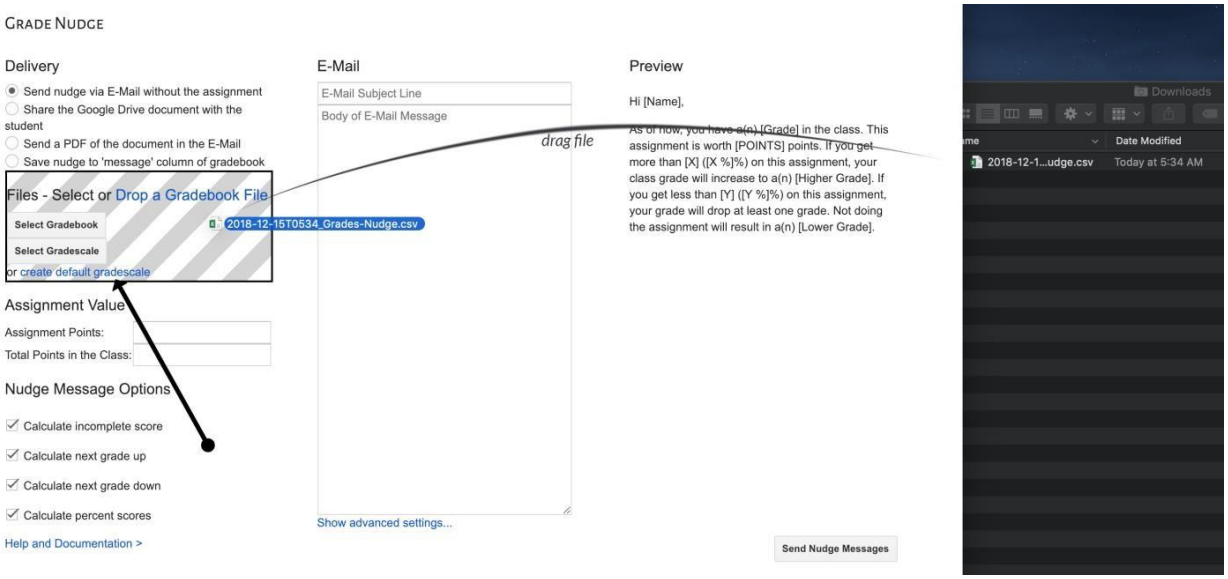

- The nudge approach is used in online courses
- It is an online tool to create assignment submission.
- It automatically create a folder in a Google drive with the given assignment, and Google document for each student in the same folder.
- A mail is sent to the student to submit assignment with attached Google Document.
- Just before an assignment due date, it also sends a remainder message to students.

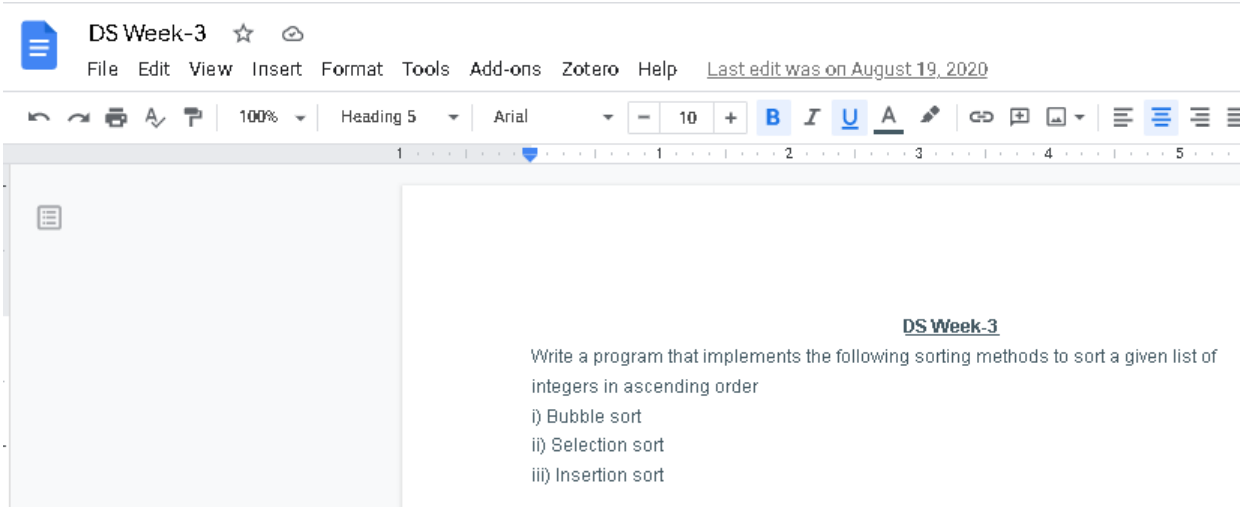

- It also reports the students their current grade, the marks of the assignment, and what happened if they got more or less than X number of points or didn't do the assignment.

Photographs:

Message sent to students by Grade Nudge:

Hi [Name], As of now, you have a(n) [Grade] in the class. This assignment is worth [Points] points. If you get more than [X] on this assignment, your class grade will increase to a(n) [Higher Grade]. If you get less than [Y] on this assignment, your grade will drop at least one grade. Not doing this assignment will result in a(n) [Lower Grade].

Faculty Name: Dr Nara Sreekanth

Class / Semester: III year -I Semester - CSE – A

Academic Year: 2020-2021

Subject Name: Computer Networks

Topic: Network Topology

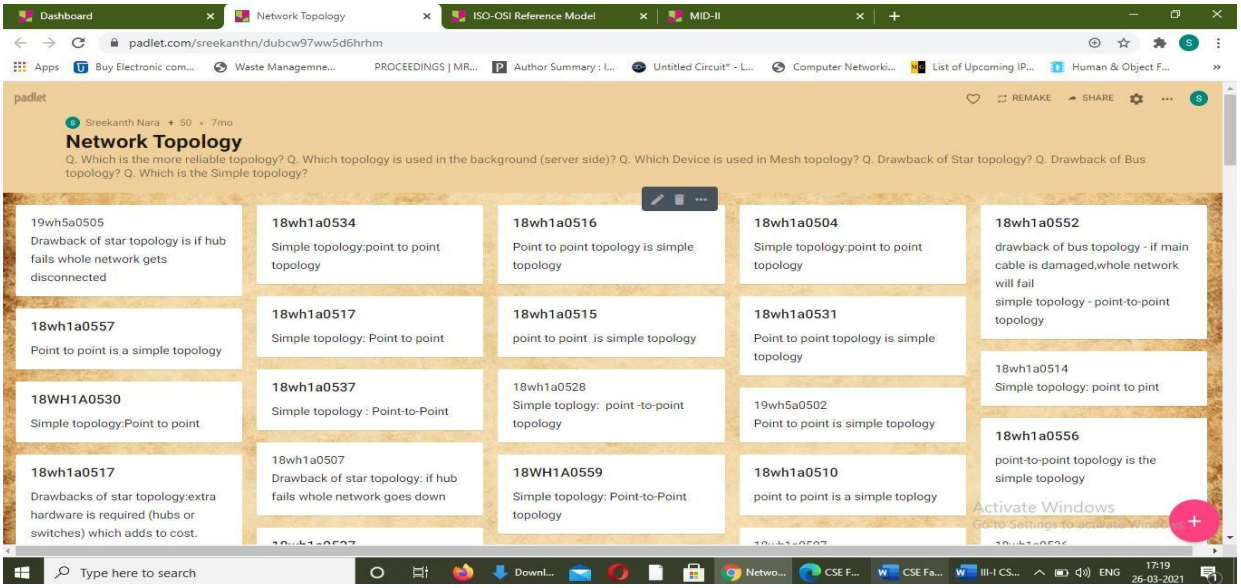

Brief Write-up (Not exceeding 200 Words)

After completion of the lecture, it is difficult to assess each student. How much knowledge they have acquired? In this activity, the faculty deliveries his lecture and at the end of the session. He shares the link (Ex: https://padlet.com/sreekanthn/dubcw97ww5d6hrhm) with instruction and question need to be answered by the students. Every student having the link can click on the '+' symbol on the web page and can add their comments / answers. The faculty can view all the students at a time. Can judge all the students at time through the students interaction on the padlet portal.

Objective:

We need a platform where the faculty we can access the students' knowledge on a specific topic, immediately after the completion of the topic. So, that he can proceed confidently to the next topic.

Academic Year: 2020-2021

Subject Name: Computer Networks

Topic: Prerequisite Test on Subject

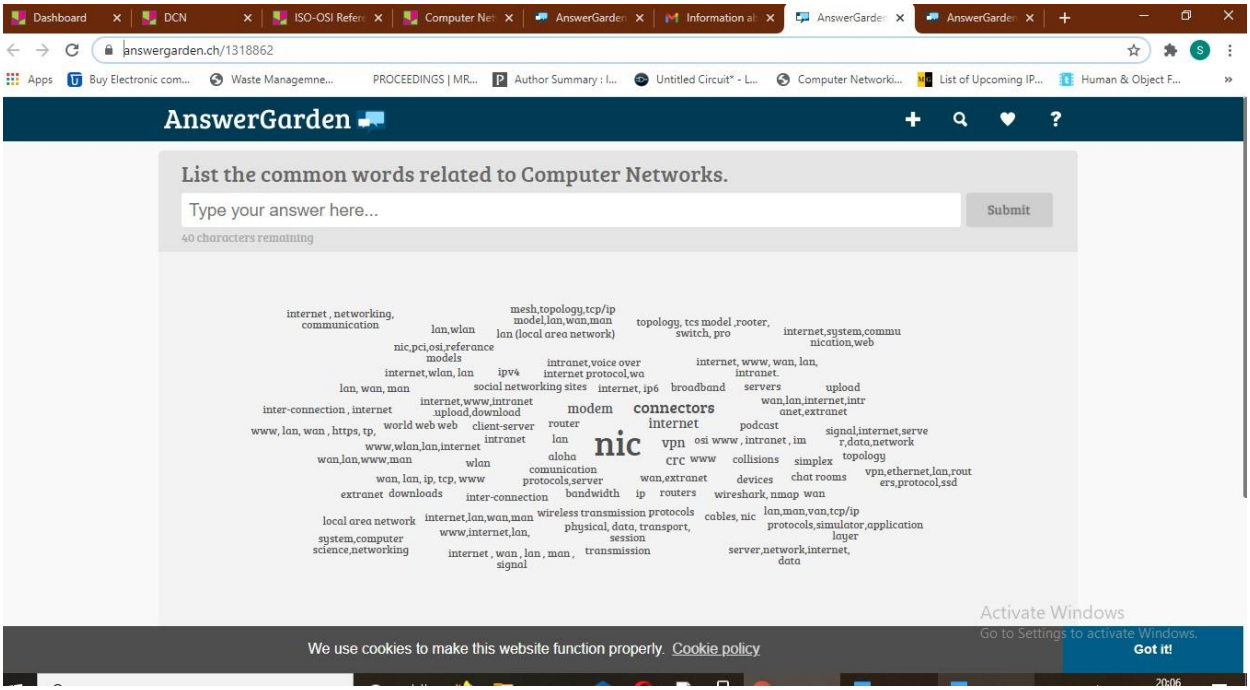

Brief Write-up (Not exceeding 200 Words)

Before commencement of the course, we would like to test the students' knowledge on the subject. So that we can try to cover the topic in depth which they don't know. Doing so creates interest to students on the subject. To access the students' knowledge we will shares the link (Ex: https://answergarden.ch/1318862) and students need to be submit their answers in the textbox Provided and click on the submit button. Each student can submit multiple answers one at a time. The faculty can view the answers in the tag cloud format with different font size. The bigger font size indicates the topic is well known, while the lesser font size indicates the faculty needs to elaborate on it.

Objective:

We need a platform where the faculty we can access the students' knowledge on the subject on the first day lecture. So, that he can judge the students well ahead commencement of the course.

BVRIT HYDERABAD
College of Engineering for Women
(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)
Bachupally, Hyderabad-090
Department of Computer Science & Engineering

Name of the Activity: Chart preparation

Faculty Name: Ms. Padmavati E Gundgurti

Class / Semester: IV/I- CSE A

Academic Year: 2020-2021

Subject Name: Cloud Computing

Topic: Cloud Deployments Model

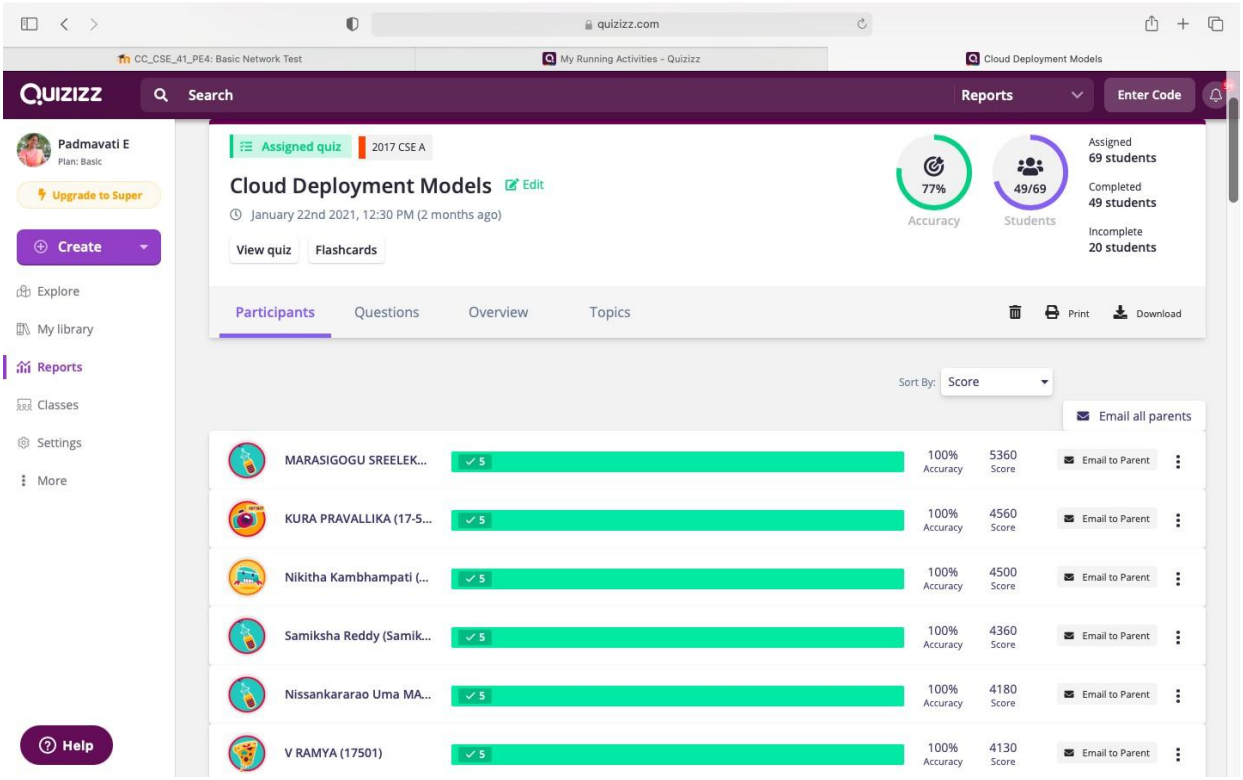

Brief Write-up:

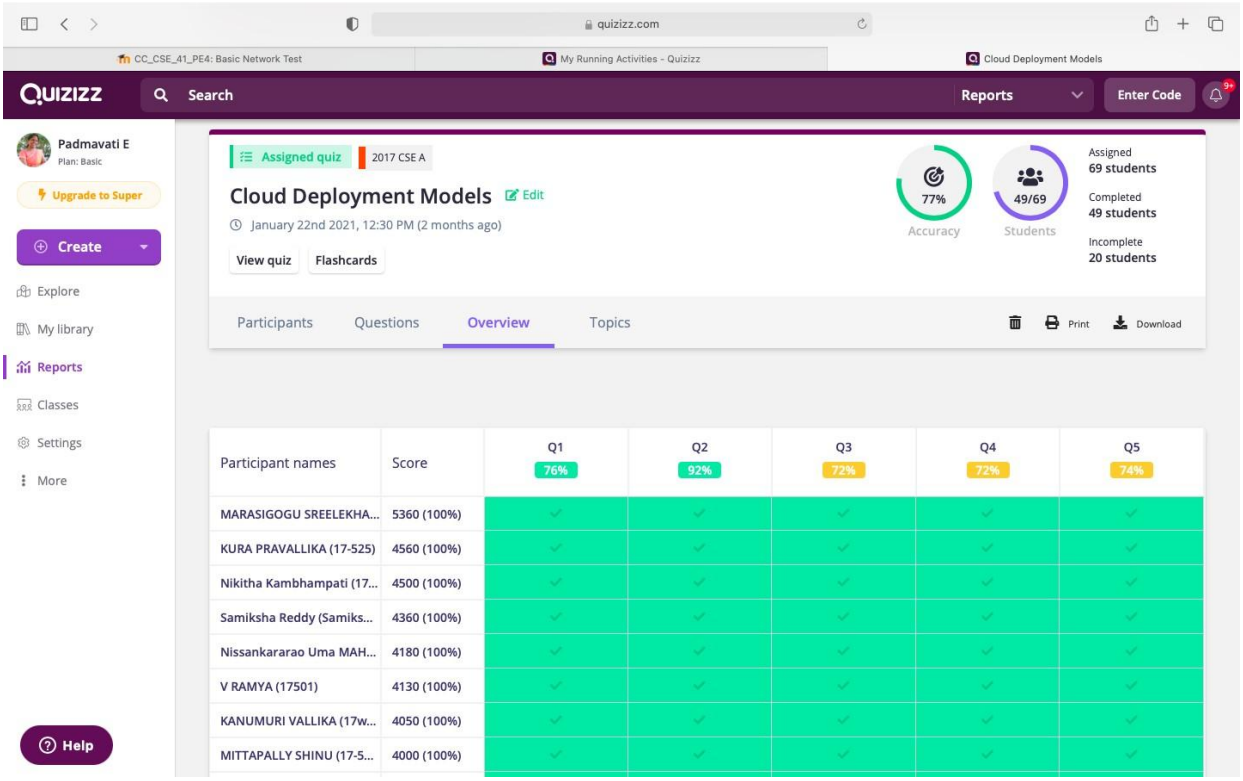

Faculty gives instructions to students regarding the chart preparation briefly and time duration is given for the topic.

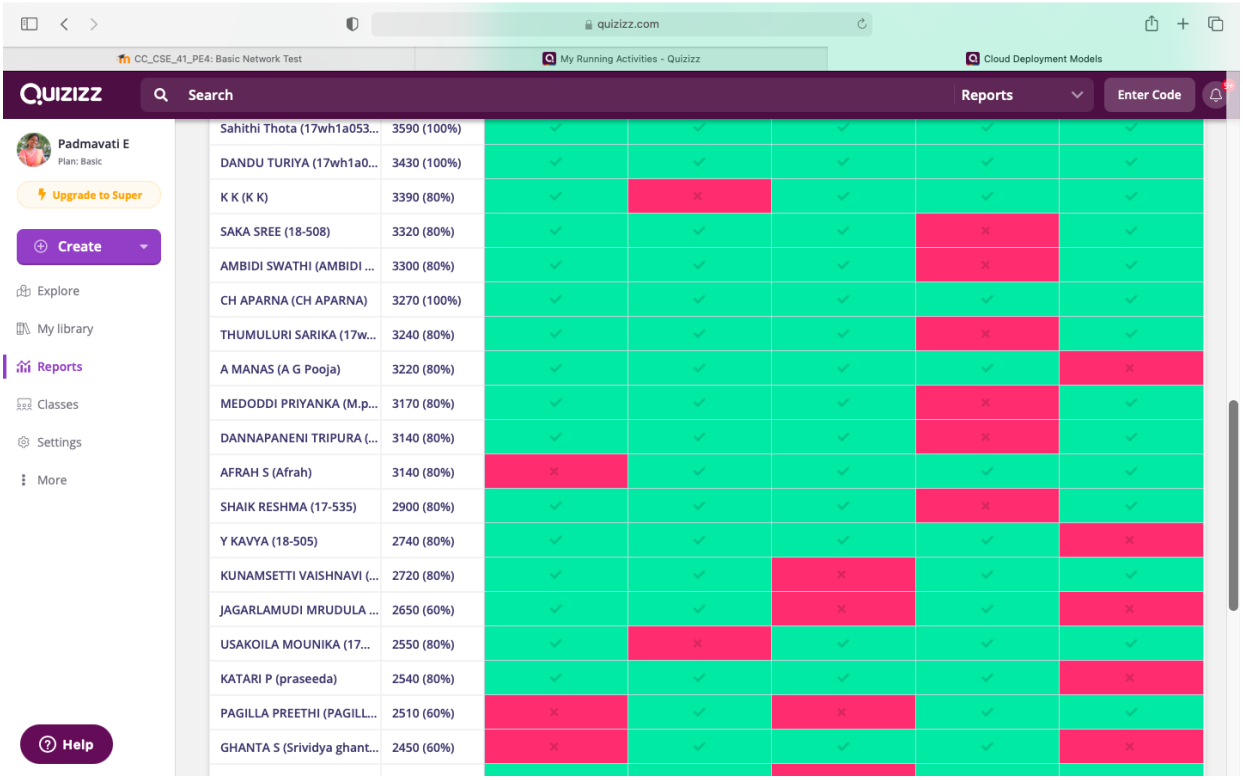

Objective:

- Students will learn regarding different types of Cloud Deployment models.
- Usage of different types of Cloud Deployment models in their projects.
- Students will identify the need for Cloud Computing and its essential characteristics.
- To improve the memory power and also to test the students confidence in the knowledge of the subject.

Department of Computer Science & Engineering

Name of the Activity: RUSPBERRY KIT

Faculty Name: Mr S K Hiremath

Class / Semester: III–II CSE-B

Academic Year: 2020-2021

Subject Name: Fundamentals of Internet of Things(FIoT)

FIOT **Topic: RASPBERRY KIT**

Brief Write-up (Not exceeding 200 Words)

Objective:

Objective of using demonstrating the working Model of Raspberry Kit Model 3 in the classroom allows students to work in teams formations for Mini-Projects and participations in National Level events. It provides a platform to interact with ideas sharing among the the faculty and all students.

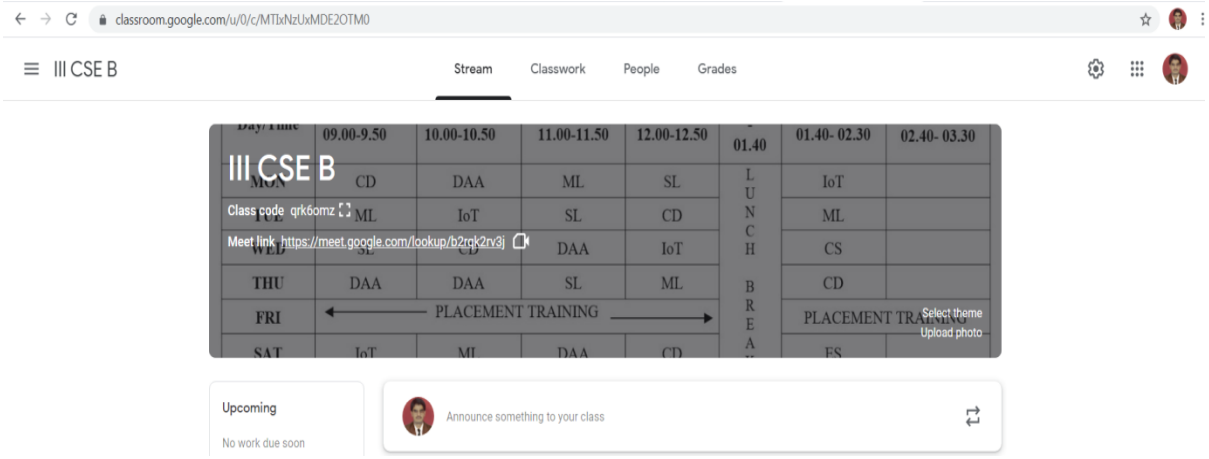

We have demonstrated in the class about functioning of Raspberry Kit used in Internet of Things with Applications Developments.

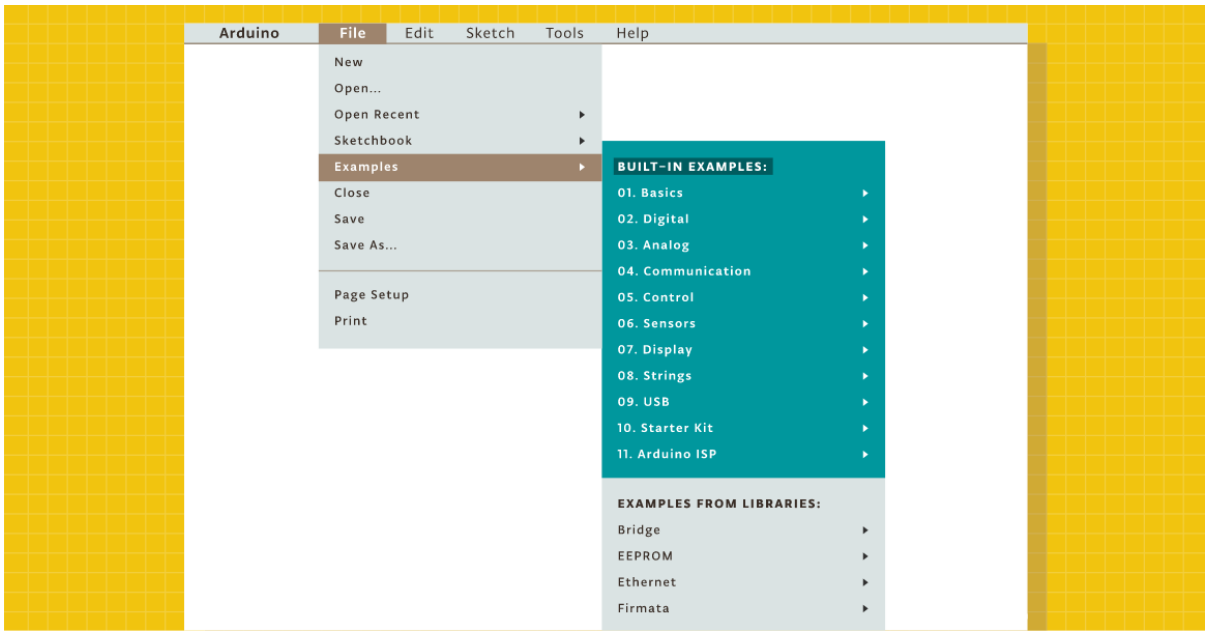

We have implemented our regular Class of FIoT in Google Meet link.We discussed all the possibilities of developments of number of applications using Rasberry Kit. demonstrated in the classrooms. All students are participated and discussed about Software Installations ,Hardware Interfacing where all the students will get a opportunities to talk on applications and coordinated and how to interface the Hardware components for executing the applications problems statement, Designs, etc. We have used the same classrooms for taking reviews.

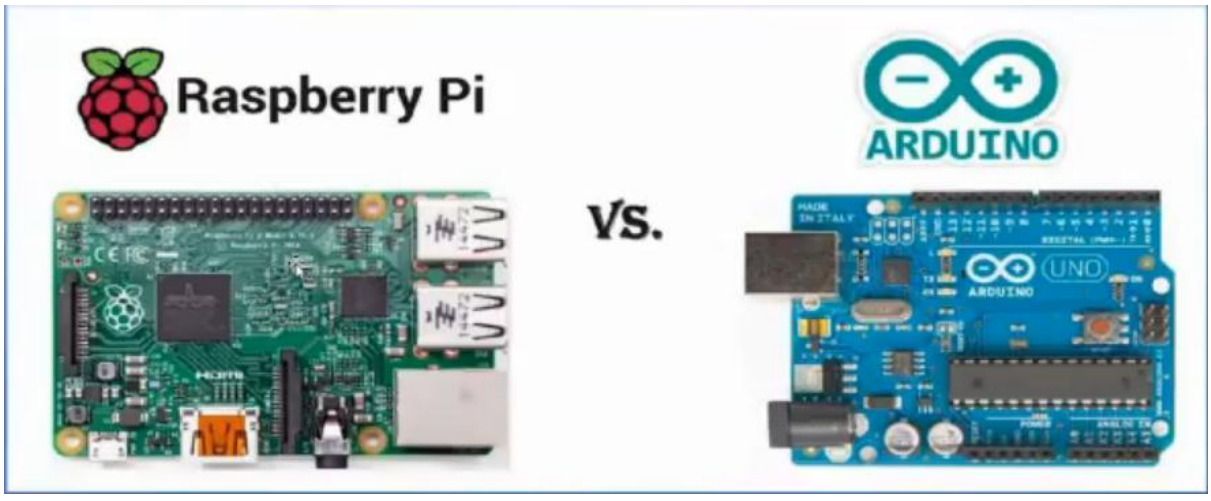

Basics and Fundamentals of Internet of Things(FIoT)

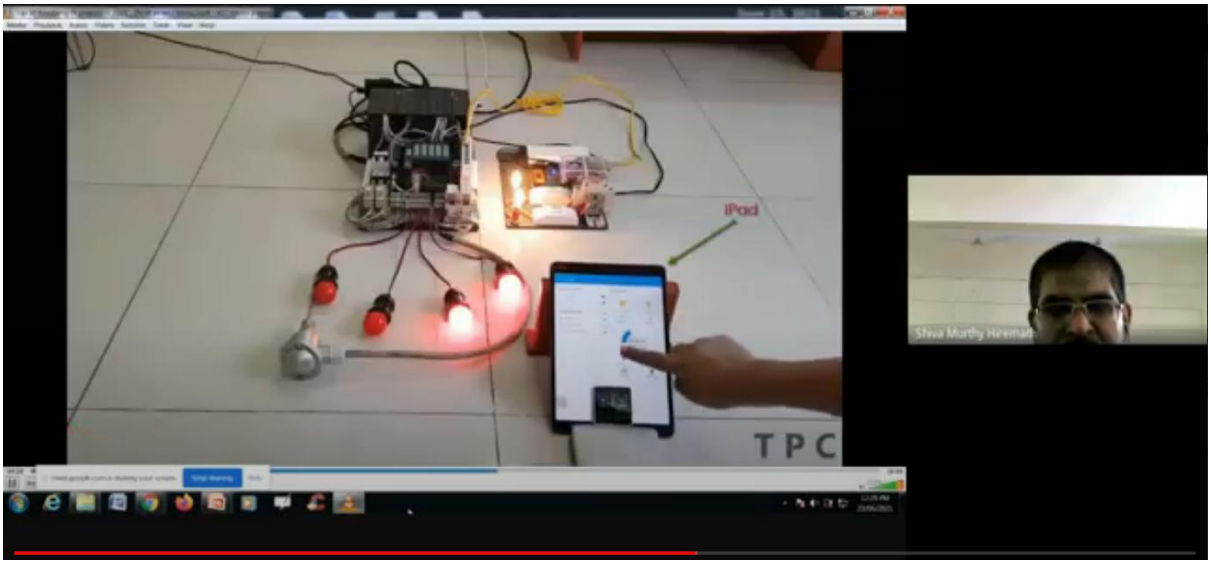

- Analog Read Serial: Read a potentiometer, print its state out to the Raspbery Kit.
- Bare Minimum: The bare minimum of code needed to start an Raspberry Kit sketch coding.
- Blink: Turn an LED on and off.
- Digital Read Serial: Read a switch, print the state out to the Arduino Serial Monitor.
- Fade: Demonstrates the use of analog output to fade an LED.
- Read Analog Voltage: Reads an analog input and prints the voltage to the Serial Monitor.

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Technical Talk on Cyber Security

Faculty Name: Mr S K Hiremath

Class / Semester: III–II CSE-A

Academic Year: 2020-2021

Subject Name: Cyber Security

Topic: Cyber Security Technical Talk by Students

Brief Write-up (Not exceeding 200 Words)

Objective is to creating a platform to share their knowledge and secure cyber ecosystem under Cyber Security India.

We conducted Technical Talk Activity in Google Meet Link in the classroom allows students to Talk on Technical Topics and participations in National Level paper presentations ,Seminars, and Projects events. It provides a platform to interact with ideas sharing among the faculty and all students. The Technical Talk refers to the 3 goals of cyber security Confidentiality, Integrity, and Availability of the organizations systems, network and data. The Technical topics covers under :

1) To designate a National nodal agency to coordinate all matters related to cyber security in the country, with clearly defined roles & responsibilities.

2) To encourage all organizations, private and public to designate a member of senior management, as Chief Information Security Officer (CISO), responsible for cyber security efforts and initiatives.

3) To encourage all organizations to develop information security policies duly integrated with their business plans and implement such policies as per international best practices. Such policies should include establishing standards and mechanisms for secure information flow

DIGITAL FORENSICS & CYBER SECURITY

Digital and Multimedia Evidence and Forensics:
- Novel Digital Forensic Techniques and Tools;
- Multimedia Forensics (including but not limited to Image-, Audio-, and Video Analysis, Biometrics, Linguistic Analysis of Texts);
- Chip-off Forensics;
- Mobile & Network Forensics;
- ICS/SCADA Forensics;
- Live Data Forensics;
- Forensic Lab Management and Accreditation.

Legal Applications:
- E-Discovery;
- Investigations of Cybercrime, Terrorism, Computer-Related Fraud, Computer-Related Forgery, Content-Related offenses (Child abuse materials, Promotion of extremism), Copyright Infringement;
- Other Legal Aspects of Digital Evidence Procedure and Applications.

Applications in Technological Security:
- Cloud Computing Security;
- Web Application Security;
- Database Security;
- Intrusion Detection/Prevention;
- Network Security;
- Mobile Device Security;
- Smart Grid Security;
- Self-Organized Resilient Systems;
- Critical Infrastructure Security;
- ICS/SCADA Security;
- Security of "Internet of Things";
- Quantum Computing Security;
- Digital Currency Security
- Security of Wearable Devices;
- Digital Rights Management.

Applications / Issues in National and International Security Issues, Human Rights:
- Trans-National Cybercrime Investigations and Mutual Legal Assistance;
- Internet-based Espionage & Advanced Persistent Threats;
- State-Sponsored Cyber Warfare & Terrorism;
- International Cyber Conflicts; Government Surveillance;
- Censorship and Control of the Internet;
- International Cyber Laws and Confidence Building Measures.

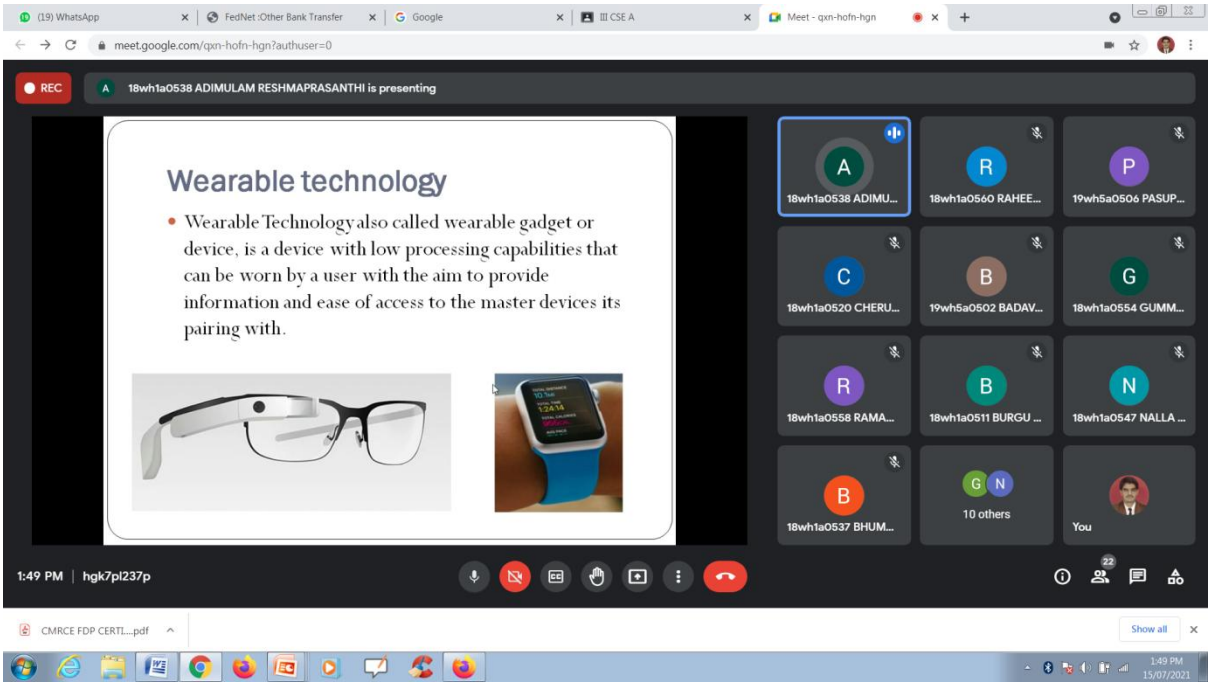

Applications in Organizational Security and Incident Response:
- Incident Response;
- Disaster Recovery;
- Insider Threat Management;
- Risk Management;

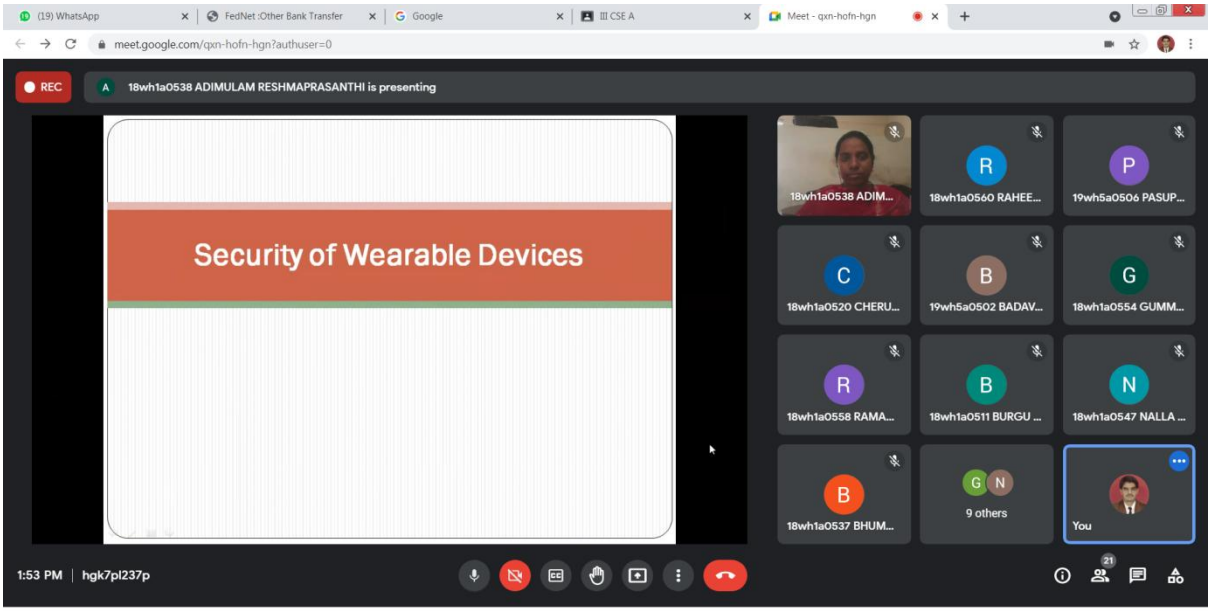

- Business Continuity;
- Security Policies;
- Security Auditing;
- Regulatory Compliance;
- Economics of Security;
- Behavioral Information Security.

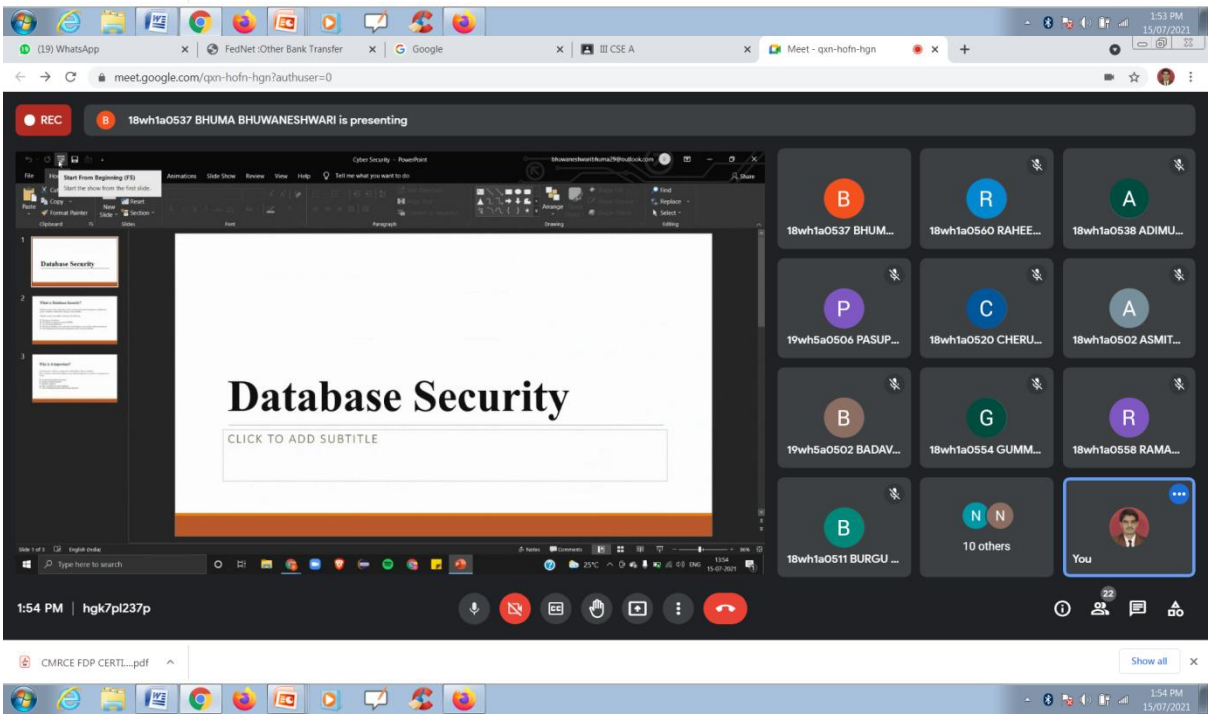

Security and Forensics Education:

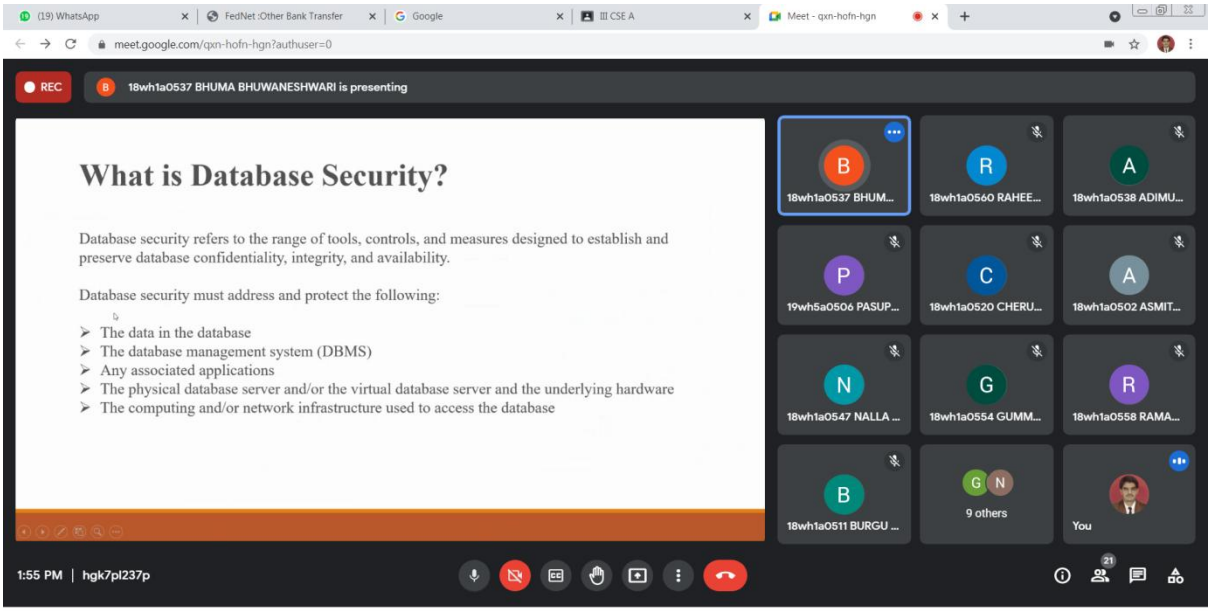

- Accreditation of Security and Forensics Training;
- Innovative Pedagogic Techniques;
- Certifications;
- Hands-on Security Laboratories and Tabletop Exercises;
- Education Infrastructure;
- Diversity in Security/Forensics Education;
- Online Security/Forensics Education.

What is Database Security?
Database security refers to the range of tools, controls, and measures designed to establish and preserve database confidentiality, integrity, and availability.
Database security must address and protect the following:
The data in the database
The database management system (DBMS)
Any associated applications
The physical database server and/or the virtual database server and the underlying hardware
The computing and/or network infrastructure used to access the database

Digital Rights Management
DRM refers to protecting ownership/copyright of electronic content by restricting what actions an authorized recipient may take in regard to that content.
It can refer to all technologies that protect them from privacy.
DRM gives digital-content publishers, hardware manufactures, copyright holders , and individuals the ability to securely distribute high-value content.

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

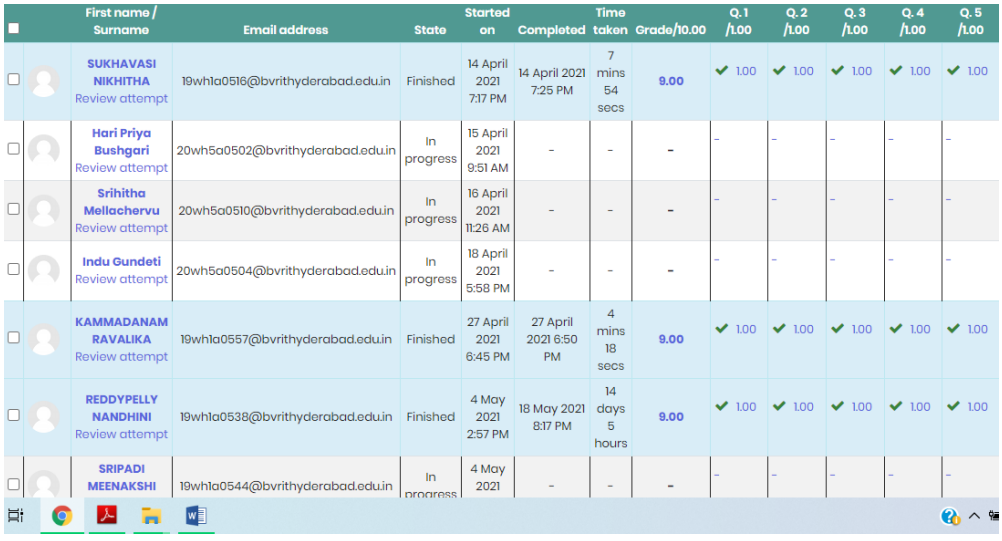

Name of the Activity: eAbyas Quiz
Faculty Name: U.Chandrasekhar
Class / Semester: II CSE B / II Semester
Academic Year: 2020-2021
Subject Name: Database Management Systems
Topic: Introduction to databases and ER diagrams
Brief Write-up (Not exceeding 200 Words)

Students were conducted a Quiz through E-Abyas portal on the topics of Unit-.
Students were asked to draw ER diagrams using online tools such as Lucidchart, https://erdplus.com etc.

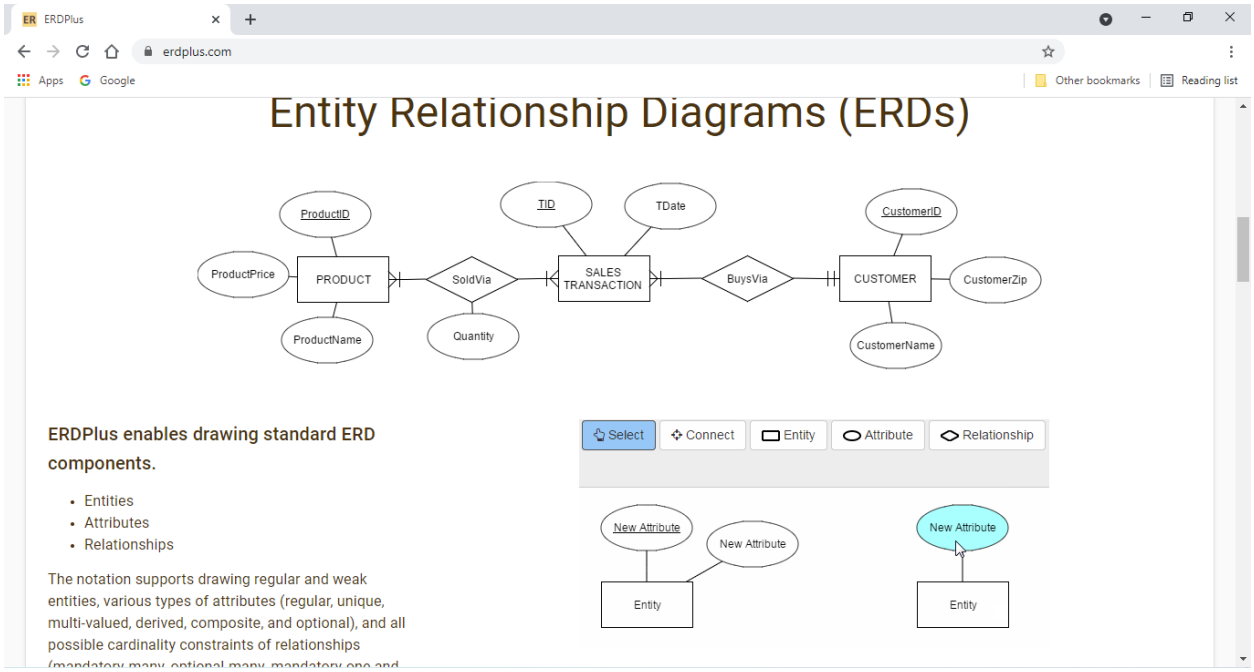

Objective:

To verify the student's understanding of Fundamentals of Databases, ER model, Relational model etc.

Photographs:

Faculty Name: Ms. Padmavati E Gundgurti
Class / Semester: IV/II- CSE B
Academic Year: 2020-2021
Subject Name: Modern Software Engineering
Topic: Certification Course on SCRUM Fundamentals Certified
Brief Write-up :

Faculty are going to explain regarding registration to be followed and decide the date according to the given scheduled list by course. So that all students can attempt on the same day and time. Reduce the impact of different types of risks. Before attending the test students should attend the webinar and answer the questions in between the session and watch 30 mins videos each video is about hardly 10 to 15 mins and finally attempt the test. Once students complete successfully the test they will receive a mail and download option for certificate.

Objectives:

- Students will learn different types of risks
- Apply in real time applications like business analysts..
- To improve the memory power and also to test the students confidence in the knowledge of the subject.

College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)
Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: eAbyas Quiz
Faculty Name: Ms. G Nagamani
Class / Semester: II CSE B/II Semester
Academic Year: 2020-2021
Subject Name: Operating Systems
Topic: Process, CPU Scheduling and IPC

Brief Write-up (Not exceeding 200 Words)

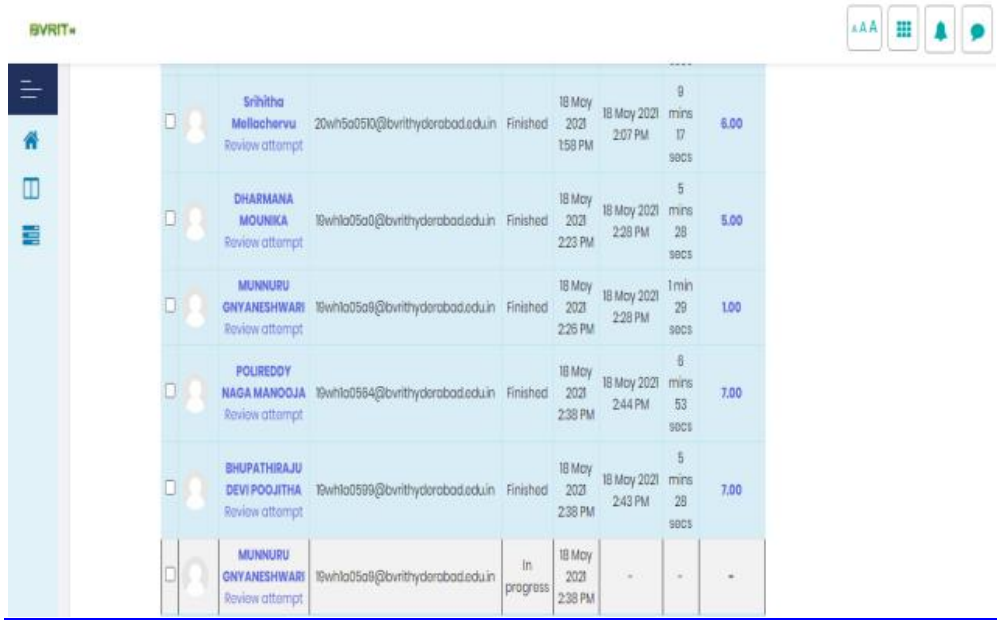

Students were conducted a Quiz through moodle portal on the topics in Operating Systems. The Quiz comprised of process scheduling concepts, CPU scheduling algorithms, IPC concepts etc. Total of 52 students participated in the Quiz

Objective:

To meet the understanding of the subject such as knowledge of process scheduling and evaluate various CPU Scheduling algorithms, learn the usage of Process Management system calls and to develop the competitive skill among students.

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

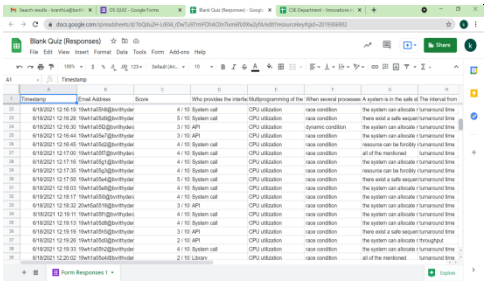

Name of the Activity: Quiz through Google Forms
Faculty Name: A.Kranthi
Class / Semester: II CSE C/II Semester
Academic Year: 2020-2021
Subject Name: Operating Systems
Topic: MMU, Deadlocks, Process management and CPU Scheduling.
Brief Write-up (Not exceeding 200 Words)

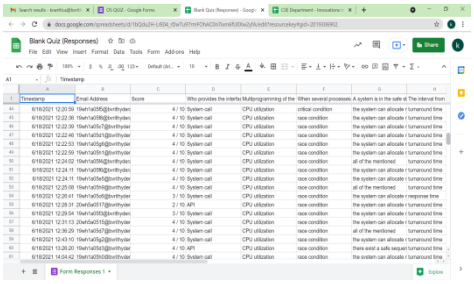

Students were conducted a Quiz through Google forms on the topics MMU, Deadlocks, process management and CPU Scheduling .The Quiz comprised of the topics related to mentioned concepts. Total of 50 students participated in the Quiz.

Objective:

To meet the concepts of the subject such as knowledge on deadlocks concepts and analyze the various concepts of process management and CPU Scheduling and also develop a competitive skill among students.

Name of the Activity: Hackerrank
Faculty Name: Mr M Dyva Sugnana Rao
Class / Semester: I/II CSE-C
Academic Year: 2020-21
Subject Name: Programming for Problem Solving
Topic: Basic Programs

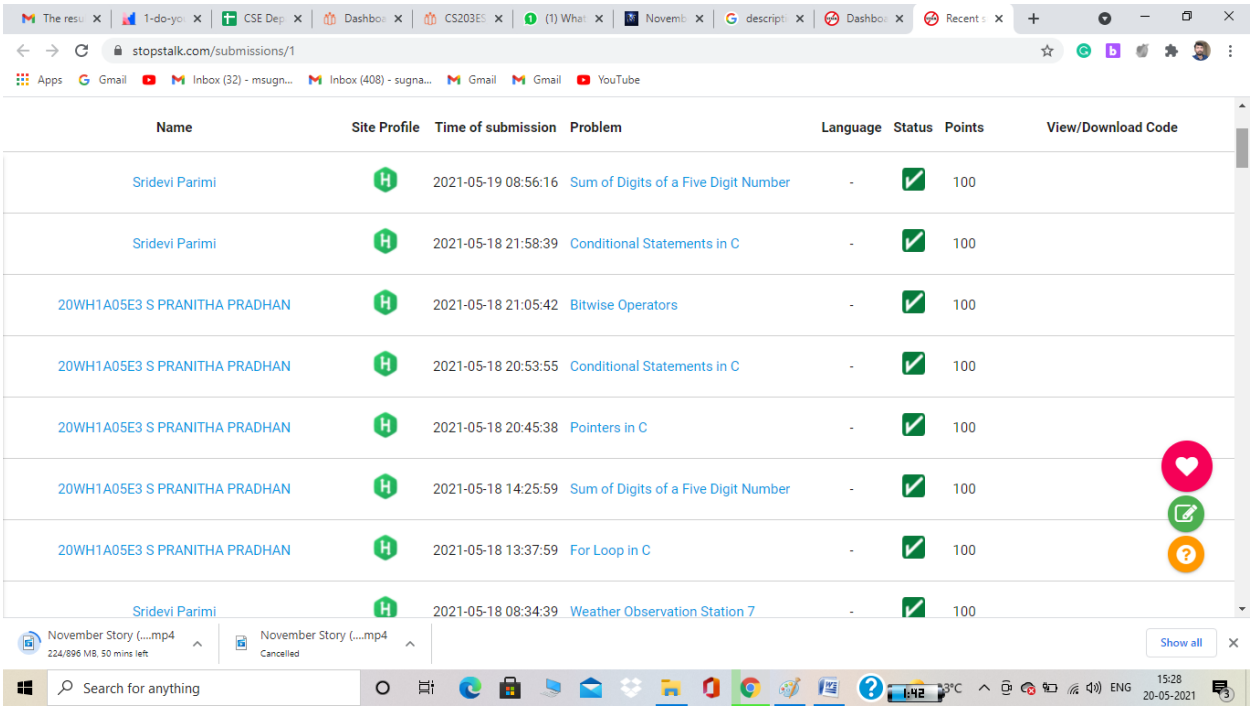

Brief Write-up (Not exceeding 200 Words):

HackerRank is a place where programmers from all over the world come together to solve problems in a wide range of Computer Science domains such as algorithms, machine learning, or artificial intelligence, as well as to practice different programming paradigms like functional programming.

Objective:

1. To explore competitive coding sites

VISHNU
UNIVERSAL LEARNING

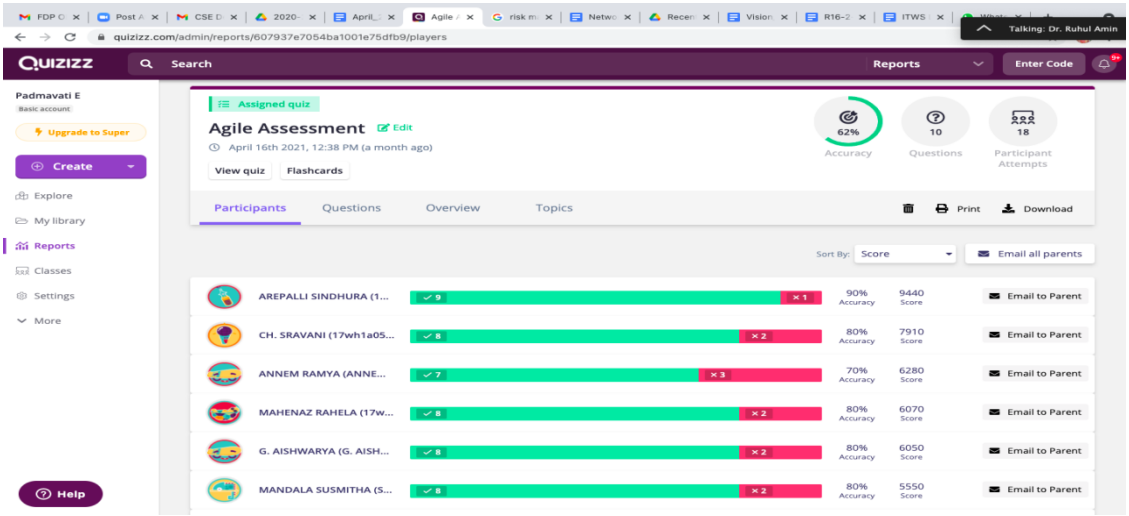

BVRIT HYDERABAD
College of Engineering for Women
(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)
Bachupally, Hyderabad-090

Department of Computer Science & Engineering

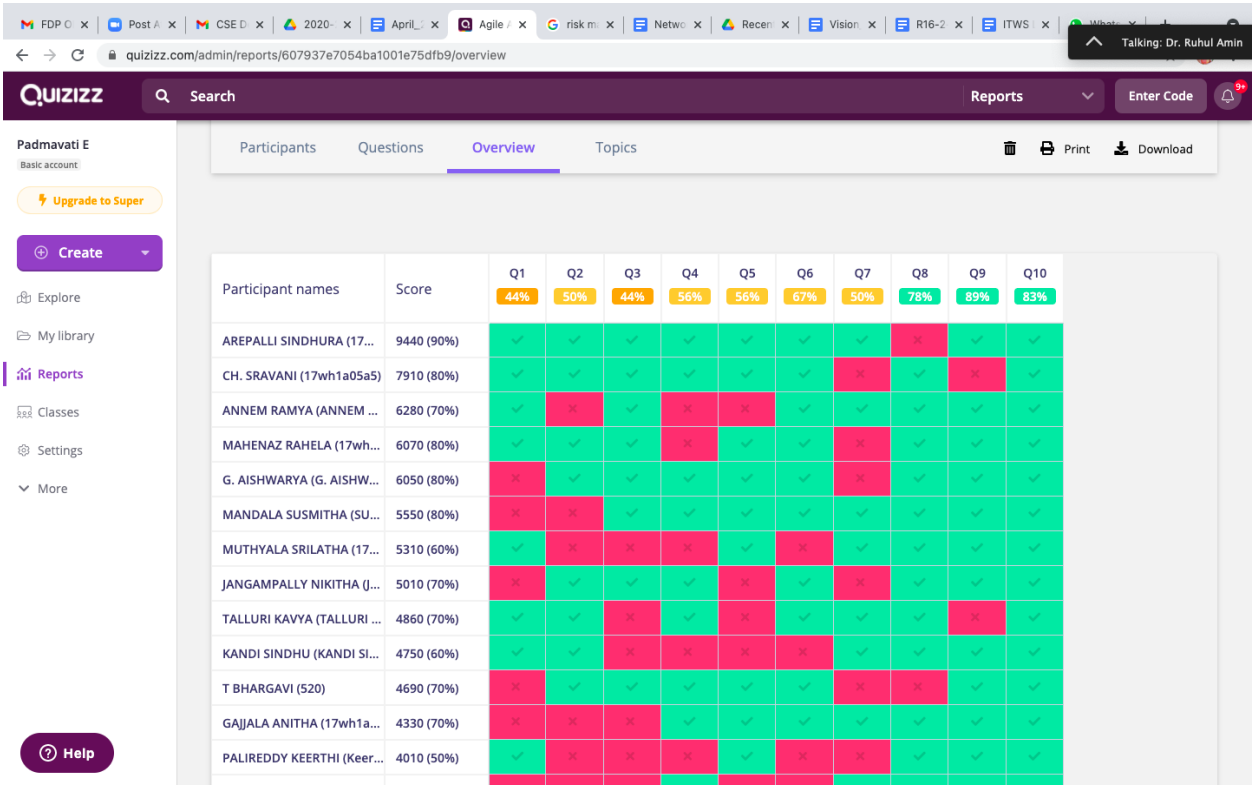

Name of the Activity: Quiz
Faculty Name: Ms. Padmavati E Gundgurti
Class / Semester: IV/II- CSE B
Academic Year: 2021-2022
Subject Name: Modern Software Engineering
Topic: Agile Assessment, Agile Basics , Agile Development and Agile Requirement Analysis.
Brief Write-up :
Faculty going to explain regarding An agile assessment allows you to evaluate how teams or even organizations are doing in their agile journey. Agile software development refers to a group of software development methodologies based on iterative development, where requirements and solutions evolve through collaboration between self-organizing cross-functional teams. Projects done in Agile Project Management framework need to undergo the Requirements Analysis phase. Requirements dictate what the team should deliver based on business priorities. After 30 mins of session students will attempt the quiz online using Quizz platform.
Objectives:

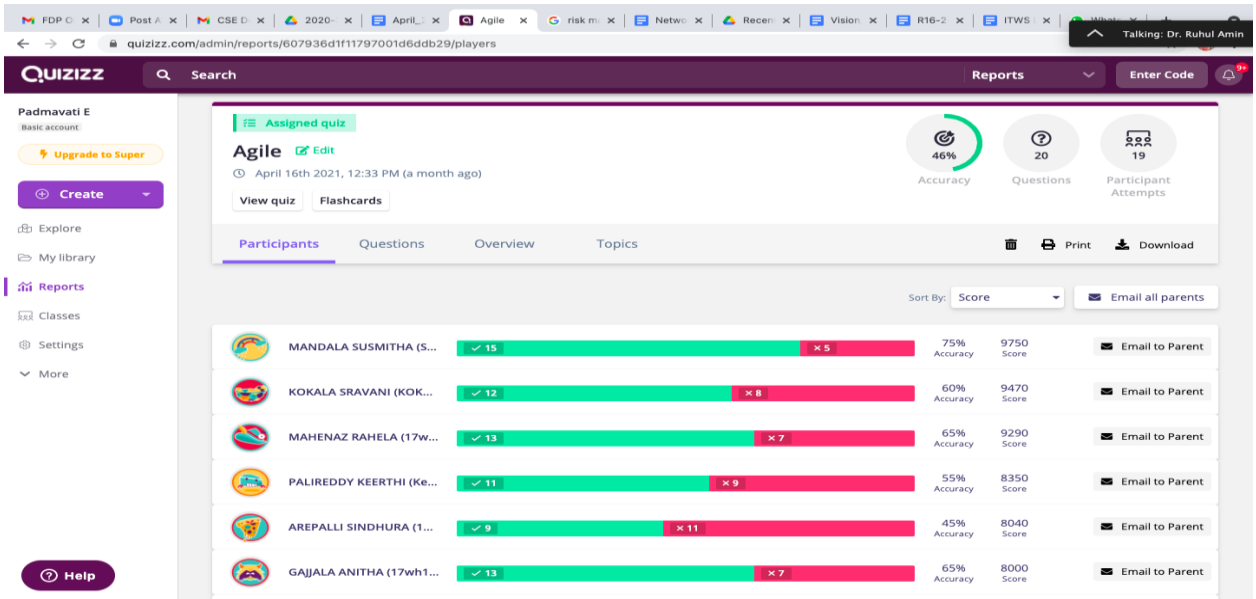

- Students will learn agile basics, requirement analysis, assessment and finally assessment.
- Apply in real time applications like business analysts with the help of expertise taking case study.
- To improve the memory power and also to test the students confidence in the knowledge of the subject.

BVRIT HYDERABAD

College of Engineering for Women

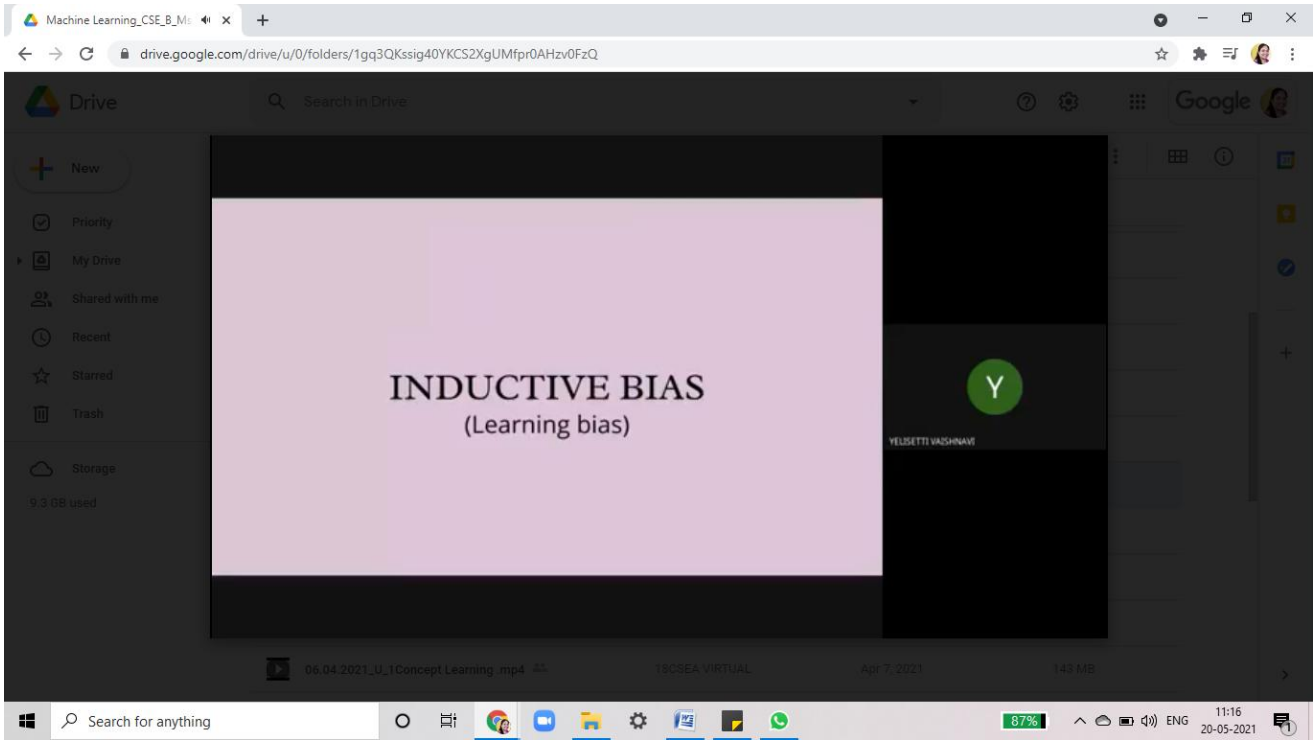

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)
Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Presentation of daily covered syllabus of Machine Learning as a recap on the next day with their understanding and their own ppts.
Faculty Name: Ms. C.Jagadeeswari
Class / Semester: III CSE B/II Semester
Academic Year: 2020-2021
Subject Name: Machine Learning
Topic: Machine Learning Unit-1
Brief Write-up (Not exceeding 200 Words)
Students were instructed to come up with their own understanding of the previous day's syllabus covered in the class and give presentations on the next day.
Time for presentation: 10-15
min
Place : Classroom

Objective:
Presentations are used as an effective form of peer learning and offer opportunities for developing skills and knowledge together.
This activity will improve presentation skills.
To understand the grasping level of students regarding concepts learnt.

Photographs:

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Animation/Video

Faculty Name: Mr. K Bhargav Ram

Class / Semester: III CSE A / II Semester

Academic Year: 2021-2022

Subject Name: Scripting Languages

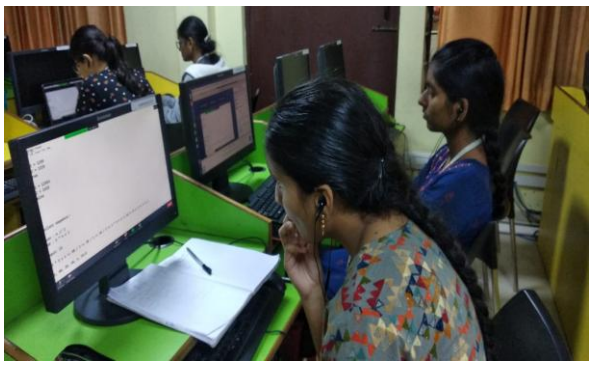

Topic: Pearl

Brief Write-up (Not exceeding 200 Words)

Students were conducted an activity named Animation/Video where topics are explained by the student using Animation/Video in Scripting Languages. The activity comprised of concepts of pearl. Total of 62 students participated in the activity.

Objective:

To meet the understanding of the subject such as knowledge of the concepts of pearl, learn the usage of their applications in various fields and to develop the competitive skill among students.

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Interactive video content

Faculty Name: Ms. Jagadeeshwari

Class / Semester: IV CSE B / II Semester

Academic Year: 2021-2022

Subject Name: Machine Learning

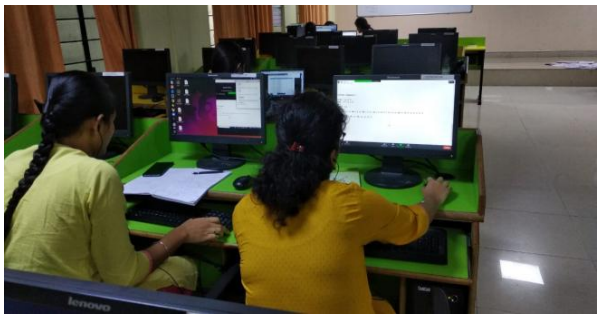

Topic: Clustering algorithms

Brief Write-up (Not exceeding 200 Words)

Students were conducted an activity named Interactive video content where topics are explained by the student using Interactive video content in Machine Learning. The activity comprised of concepts of clustering algorithms. Total of 61 students participated in the activity.

Objective:

To meet the understanding of the subject such as knowledge of the concepts of clustering algorithms, learn the usage of their applications in various fields and to develop the competitive skill among students.

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Think Pair Share

Faculty Name: Ms. M Shanmuga sundari

Class / Semester: II CSE A / II Semester

Academic Year: 2021-2022

Subject Name: DBMS

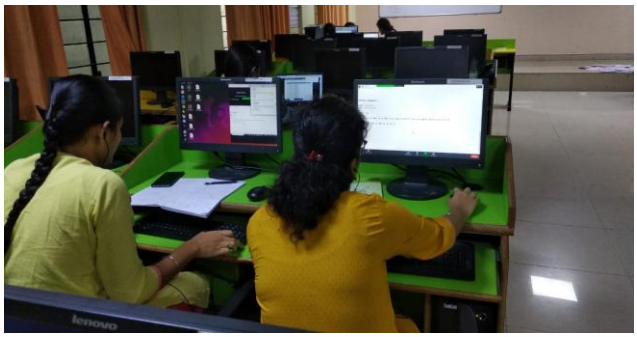

Topic: ER Model

Brief Write-up (Not exceeding 200 Words)

Students were conducted an activity named Think Pair Share where topics are explained by the student using Think Pair share in DBMS. The activity comprised of concepts of ER Model. Total of 63 students participated in the activity.

Objective:

To meet the understanding of the subject such as knowledge of the concepts of ER Model, learn the usage of their applications in various fields and to develop the competitive skill among students.

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Role Play

Faculty Name: Mr. U Chandrasekhar

Class / Semester: II CSE B / II Semester

Academic Year: 2021-2022

Subject Name: DBMS

Topic: Normalization

Brief Write-up (Not exceeding 200 Words)

Students were conducted an activity named Role Play where topics are explained by the student using Role Play share in DBMS. The activity comprised of concepts of Normalization. Total of 61 students participated in the activity.

Objective:

To meet the understanding of the subject such as knowledge of the concepts of Normalization, learn the usage of their applications in various fields and to develop the competitive skill among students.

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Group Discussion

Faculty Name: Ms. P Kavitha

Class / Semester: II CSE C / II Semester

Academic Year: 2021-2022

Subject Name: Discrete Mathematics

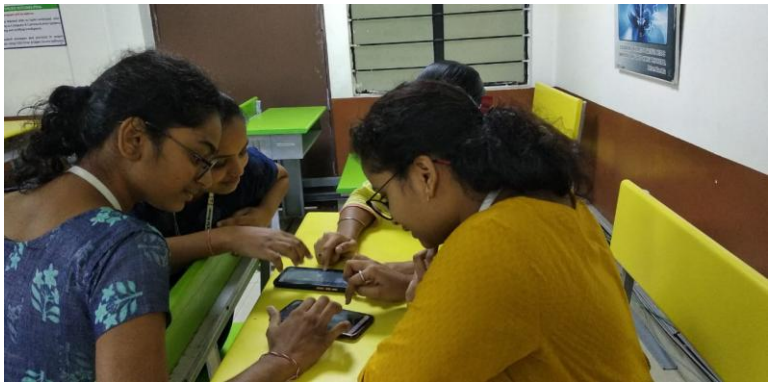

Topic: Basic Structures, Sets, Functions

Brief Write-up (Not exceeding 200 Words)

Students were conducted an activity named Group Discussion where topics are explained by the student using Group Discussion in Discrete Mathematics. The activity comprised of concepts of Basic Structures, Sets, and Functions. Total of 63 students participated in the activity.

Objective:

To meet the understanding of the subject such as knowledge of the concepts of Basic Structures, Sets, Functions, learn the usage of their applications in various fields and to develop the competitive skill among students.

BVRIT HYDERABAD College of Engineering for Women

(Approved by AICTE | Affiliated to JNTUH | Accredited by NAAC with Grade 'A' &NBA for CSE, ECE, EEE, & IT)

Bachupally, Hyderabad-090

Department of Computer Science & Engineering

Name of the Activity: Quiz using Vishnulearning LMS Faculty

Name: Ms.D Swapna

Class / Semester: II/II CSE-A

Academic Year: 2020-21

Subject Name: Operating Systems

Topic: Unit-IV (Memory Management and Page Replacement Algorithms)

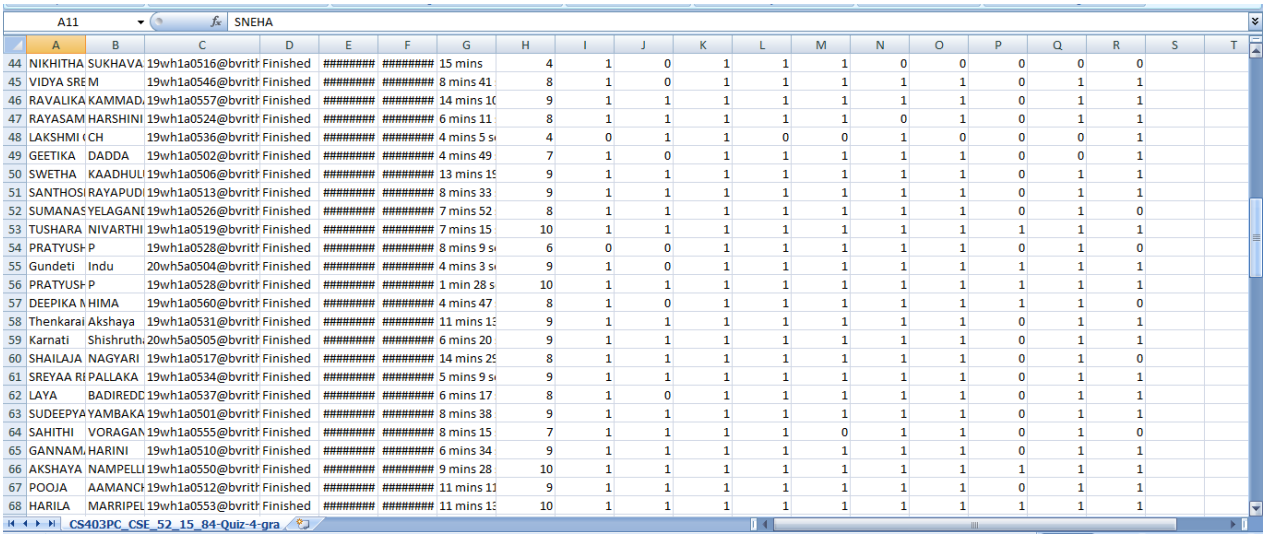

Brief Write-up (Not exceeding 200 Words):

Students are allowed to answer the questions within short time using Vishnulearning LMS platform, an online quiz. They were asked for 20 questions within 30 minutes of time. This will display the results of each student in terms of state, time duration and responses. Also displays overall students performance score in bar graph. Students are given best grade that scored high for answered correctly.

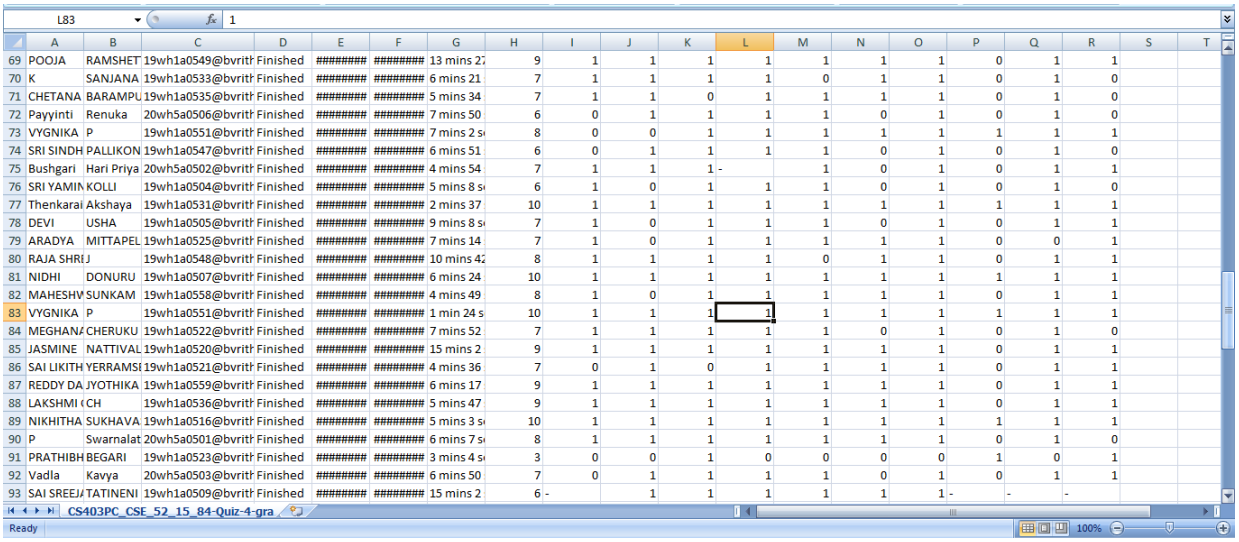

Objective:

To assess the understanding levels of the students on subject such as knowledge on memory management and allocation techniques, fragmentation, paging, segmentation, page fault, demand paging, need of page replacement and types of algorithms etc., The quiz is also helpful to develop competitive skills among students.
