Department of Electrical and Electronics Engineering
BVRIT HYDERABAD College of Engineering for Women

Name of the Activity: Padlet

Subject Name: Electrical Machine Design

Faculty Name: Ms.K.Amritha

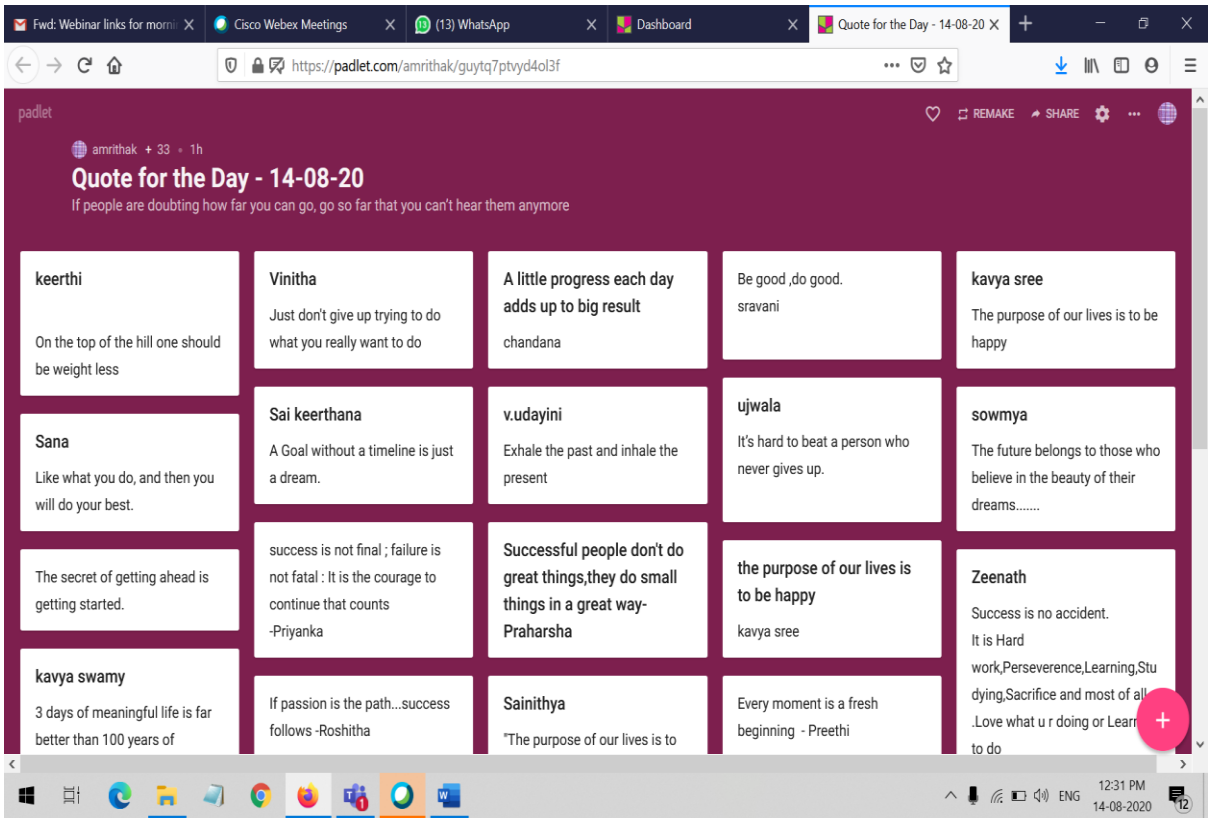

Topic: Introduction to the subject

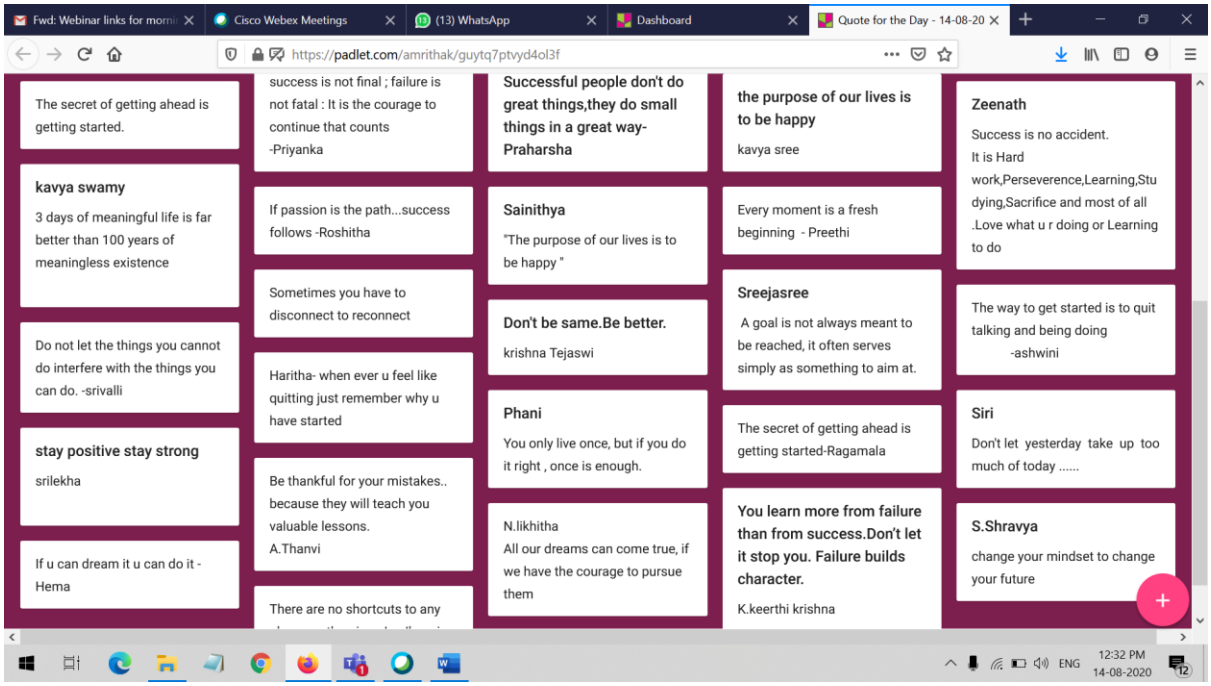

Date of Conduction: 14th August 2020

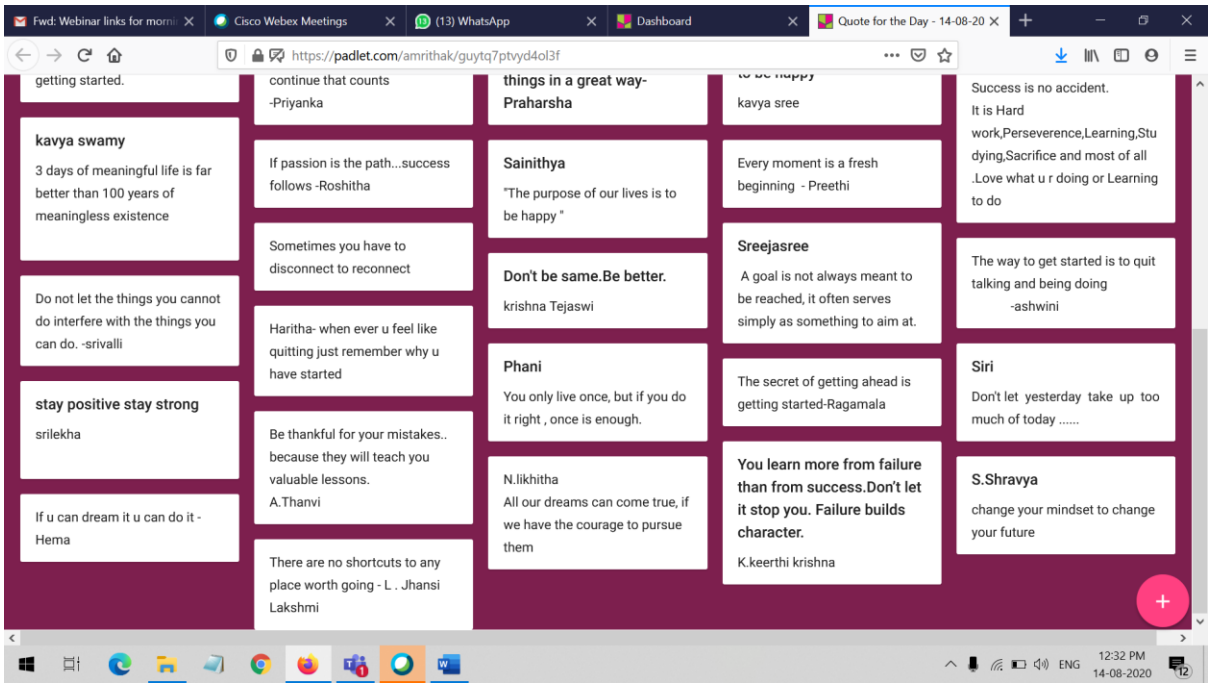

Class / Year / Semester: III EEE / 2020-21 / I Sem

Write-up

Padlet is an online common screen which can be accessed by the teacher and the students at the same time. This can be used to post notes on a common page. The notes can contain links, videos, images and document files. In this class, padlet was used to have a better interaction with the students. The students were asked to write the quote for the day. And after that all students were asked to read all the quotes get refreshed for the day.

Name of the Activity: Quiz with Kahoot

Subject Name: Electrical Machine Design

Faculty Name: Ms.K.Amritha

Topic: Magnetic and Electric loadings

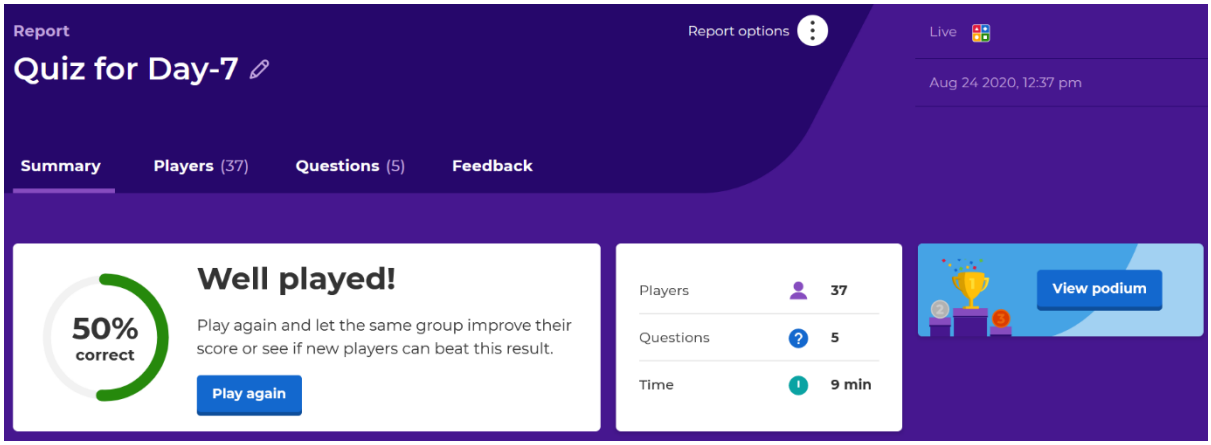

Date of Conduction: 24th August 2020

Class / Year / Semester: III EEE / 2020-21 / I Sem

Write-up

Kahoot is a game – based Learning platform where the students attend to the assessment on the topic covered, in the form of a quiz. The quiz is prepared by the teacher and the students are required to attend the questions in a fixed time frame. The questions are projected on the screen. Students have to select an option in the answer section within the set time frame. The reward points based on the time taken by a student to answer, trigger the interest in the student mind. By this activity, Students can assess the quickness of their mind and body in responding to a question.

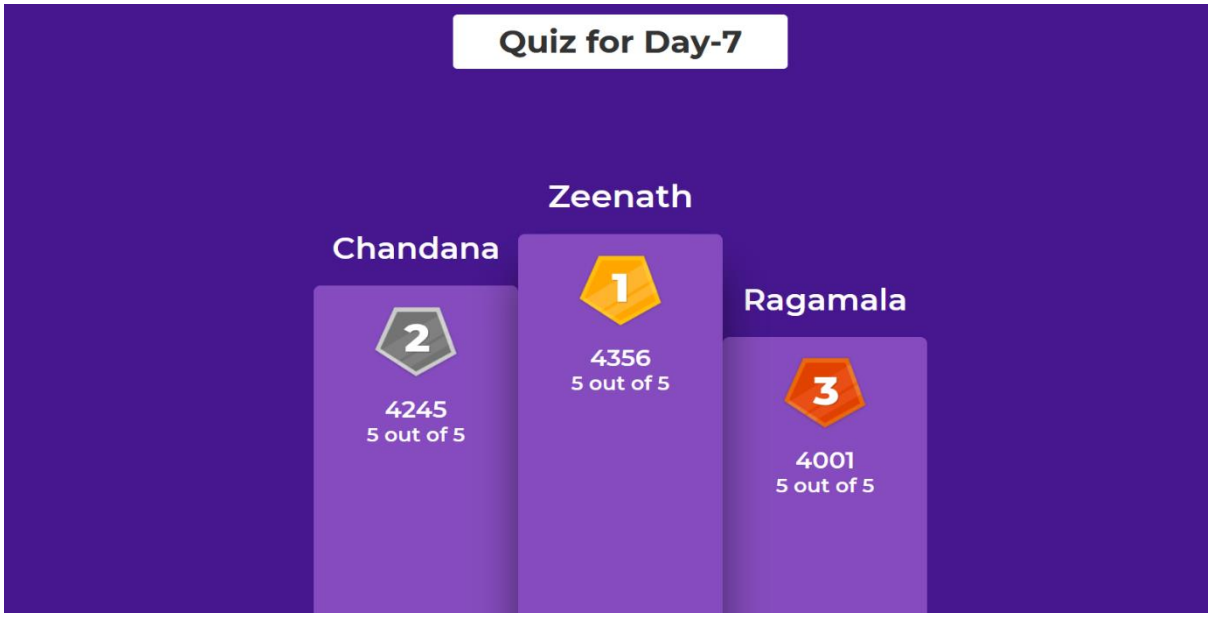

The quiz by using Kahoot was conducted on many days for many topics.

Quiz for Day-7	
Played on	24 Aug 2020
Hosted by	123Amritha456
Played with	37 players
Played	5 of 5

Overall Performance	
Total correct answers (%)	50.81%
Total incorrect answers (%)	49.19%
Average score (points)	1954.62 points

Feedback			
Number of responses	0		
How fun was it? (out of 5)	0.00 out of 5		
Did you learn something?	0.00% Yes	0.00% No	
Do you recommend it?	0.00% Yes	0.00% No

Average score (points)	3181.13 points

Department of Electrical and Electronics Engineering
BVRIT HYDERABAD College of Engineering for Women

Name of the Activity: Categorizing Grid

Subject Name: Basic Electrical Engineering
Faculty Name: Ms. P. Subhashitha
Topic: Terms of Single Phase Transformer & DC Motor
Date of Conduction: 17th March 2020
Class / Year / Semester: I IT-B / 2020-21 / I Sem

Brief Write-up (Not exceeding 200 Words)

Knowing the terms and facts of a course and remembering has a lot of significance in the learning of students. The terms sometimes can be confusing when they are similar for two concepts or devices. This assessment technique helps the students differentiate the terms and provides a simple way to remember them as well. This activity is conducted with the teaching goal of helping the students to learn the terms and facts of a course. The activity needs individual attempt. The results of this activity can help the teacher understand with what terms and concepts students are getting confused and can also assess how many students are facing a similar problem.

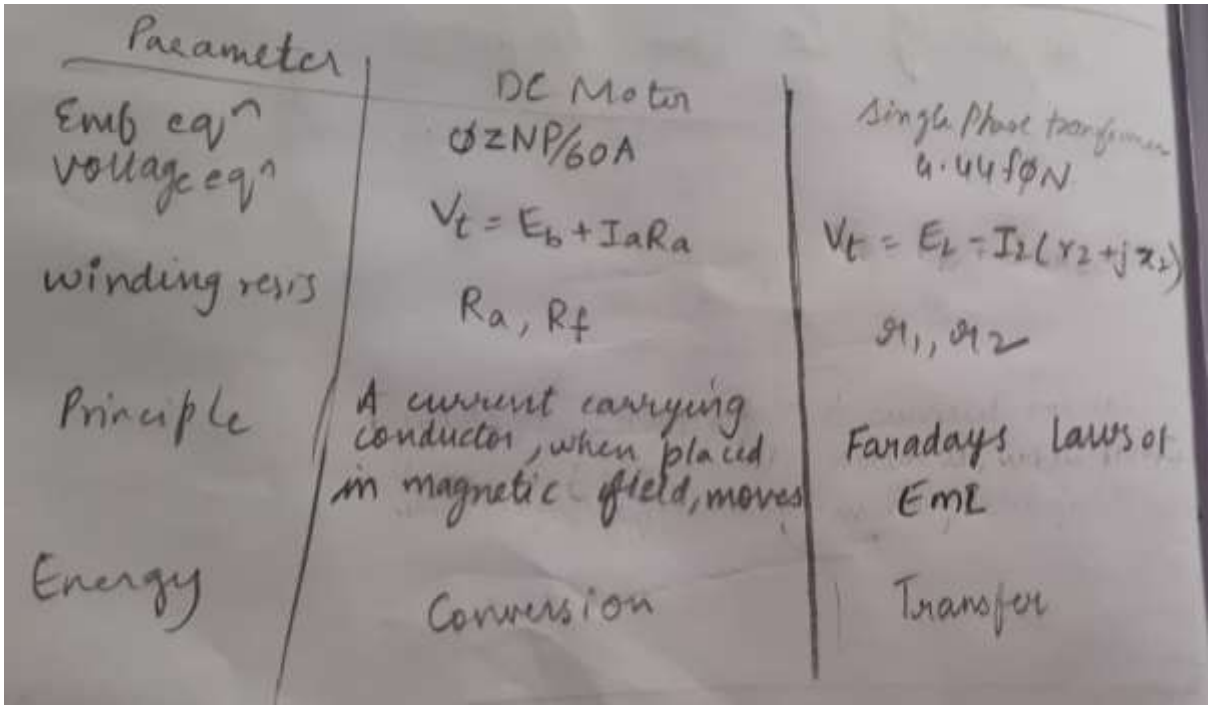

Categorising Grid:

Parameter	DC Motor	Single Phase Transformers
EMF Equation		
Voltage Equation		
Winding Resistances		
Principle		
Energy		

1. $\varphi ZNP/60A$
2. $4.44f\varphi N$
3. Ra, Rf
4. $r_1 r_2$
5. $Vt = Eb + IaRa$
6. $V_2 = E_2 - I_2(r_2 + jx_2)$
7. Faradays Laws of EMI
8. A current carrying conductor, when placed in magnetic field, moves.
9. Transfer
10. Conversion
11. $Vt = Eb - IaRa$

Learning Resources: All the required topics are discussed and reading material is provided for their reference well ahead of this activity.

This image is projected in the classroom. The students are supposed to fill the correct term from the options given on the right side of the grid in the appropriate cell of the grid. Students who were attending the class online sent images of their grid.

Name of the Activity: Moodle- Quiz

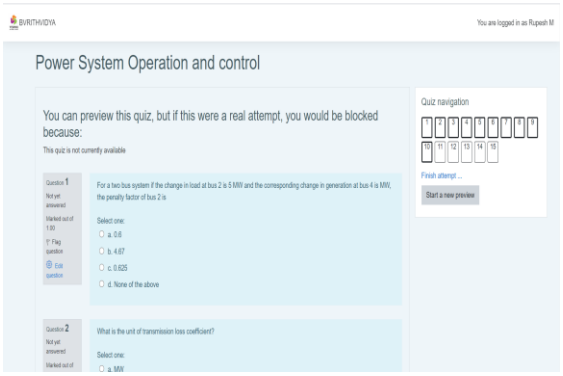

Subject Name: Power System Operation and control
Faculty Name: Mr. M Rupesh
Topic: Load Frequency Control
Date of Conduction: 19th December 2020
Class / Year / Semester: IV EEE / 2020-21 / I Semester

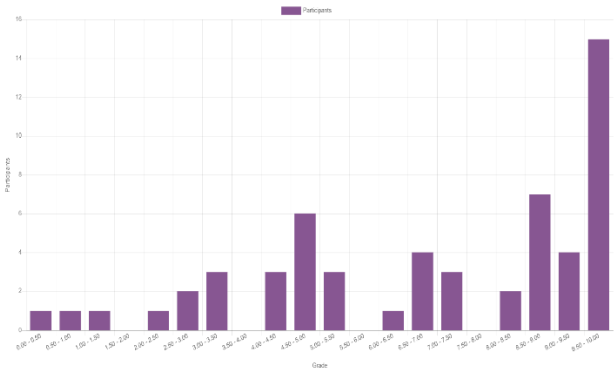

Brief Write-up

Moodle is one of the Learning Management System (LMS) where we can incorporate required additional tools which are used for teaching learning activities. Quiz is one of the powerful tool to monitor and diagnose the student performance with certain types of knowledge. Using this tool effectively can boost your course's effectiveness, and promote student performance. The quiz is scheduled in the Moodle with time limits and informed the same who students who were added in the Moodle course and the quiz is consisting of Multiple-choice questions with easy, moderate and hard levels.

The advantages of Online Quiz in Moodle are as follows.

1. Students can be engaged remotely in an attractive mode
2. At the same time large number of students can take the test.
3. The questions and options are randomized.
4. Results and summary of quiz with correct options can be displayed immediately after completing the quiz.
5. Faculty can analyze the students understanding levels with the results immediately.

Brief Write-up:

Padlet is like paper for your screen. Start with an empty page and then put whatever you like on it. Upload a video, record an interview, snap a selfie, write your own text posts or upload some documents, and watch your padlet come to life. Once others add to it, the page will update in real time. Used by teachers, students, professionals, and individuals of all ages, all around the world, the Padlet app is the easiest way to create and collaborate wherever you are. Padlet supports any file type you can imagine, from Spotify Playlists to Excel Spreadsheets. Upload a link and watch a detailed preview appear. Organize the content in any format you like - whether you prefer an grid of images or a chronological scroll.

Brief Write-up

Quizziz is an online assessment tool that allows to teachers and students to create and use one another's quizzes. After providing students with a unique access code, a quiz can be presented live as a timed competition & assess the student's performance.

Quiz is one of the powerful tool to monitor and diagnose the student performance with certain types of knowledge. Using this tool effectively can boost your course's effectiveness, and promote student performance. The quiz is scheduled in the Quizziz with time limits s consisting of Multiple-choice ,short aswer questions with easy, moderate and hard levels.

The advantages of Online Quiz by quizziz tool are as follows.

1. Students can be engaged remotely in an attractive mode
2. At the same time large number of students can take the test.
3. The questions and options are randomized.
4. Results and summary of quiz with correct options can be displayed immediately after completing the quiz.
5. Faculty can analyze the students understanding levels with the results immediately.
