Class / Year / Semester : IV- IT/ 2020-21 / I Sem

Brief Write-up:

H5P is an abbreviation for HTML5 Package. It enables educators to create content such as interactive videos, quizzes and presentations. A great benefit with H5P is that it allows you to easily share and reuse content. To reuse content, you just download the H5P you would like to edit and make your changes – e.g. translate to a new language or adjust it to a new situation. Video content on the difficult topics was created and in between the video MCQs/fill in the blanks were added using H5P software , students have to answer the questions while watching the video.

Name of the Activity: Building Business Modeling Canvas

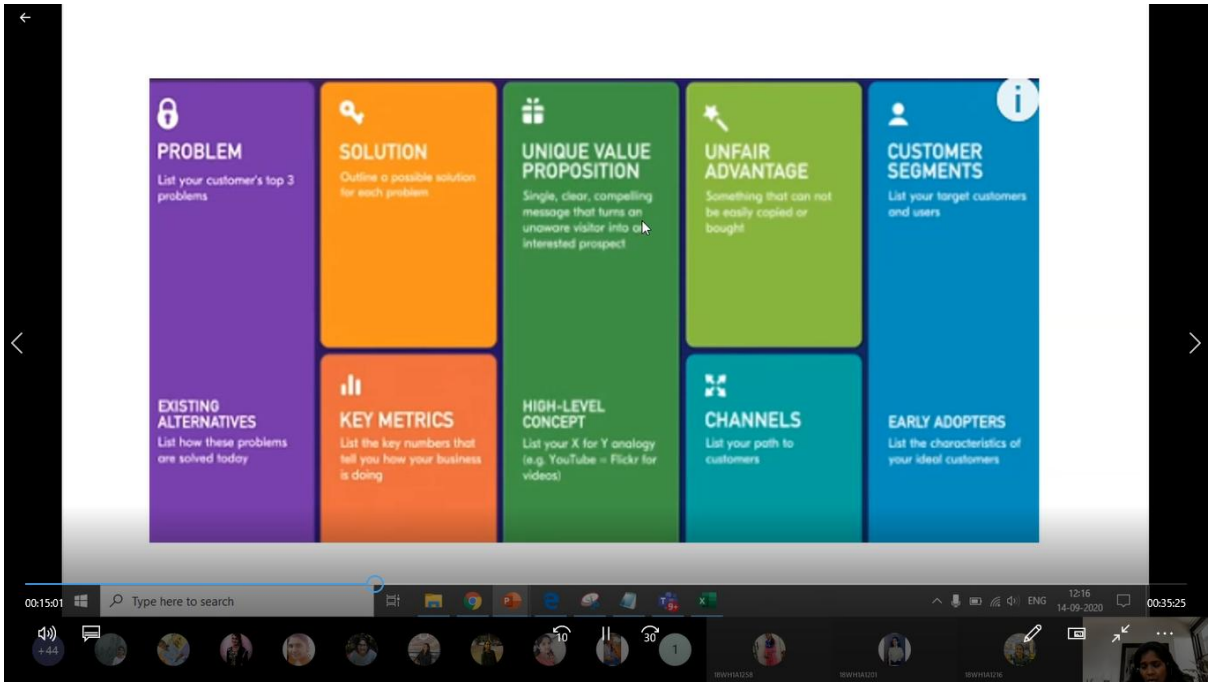

Subject Name	: Data Analytics
Faculty Name	: Dr.P.Kayal
Topic	: Unit -II
Date of Conduction	: 05/10/2020 ,7/10/2020
Class / Year / Semester	: III - IT / 2020-21 / I Sem

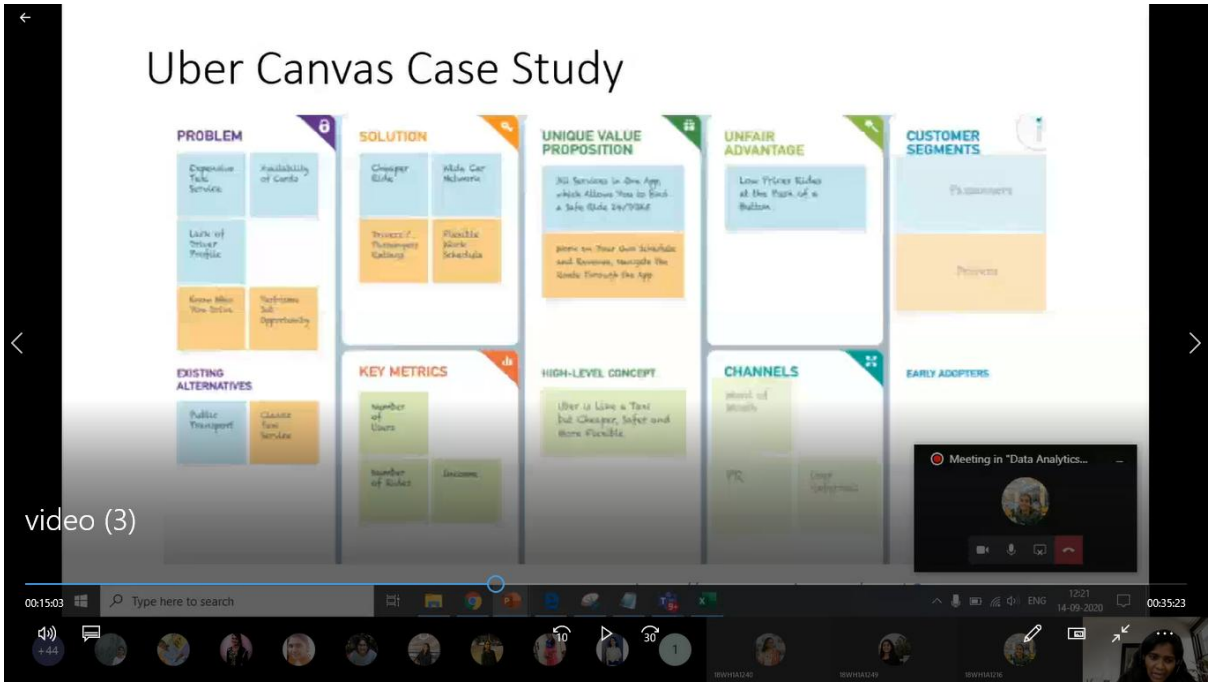

Brief Write-up :

Data Analytics includes a major approach called Business modelling plan. Students were taught about building business canvas with use cases in a classroom activity mode. 3 Team were formed (using GMeet links) and each worked on different business novel ideas. They were given 40 minutes time for group brainstorming and they were asked to present their business canvas in the next session on 17/09/2020. Students actively participated and have come up with well planned canvas.

Department of Information Technology

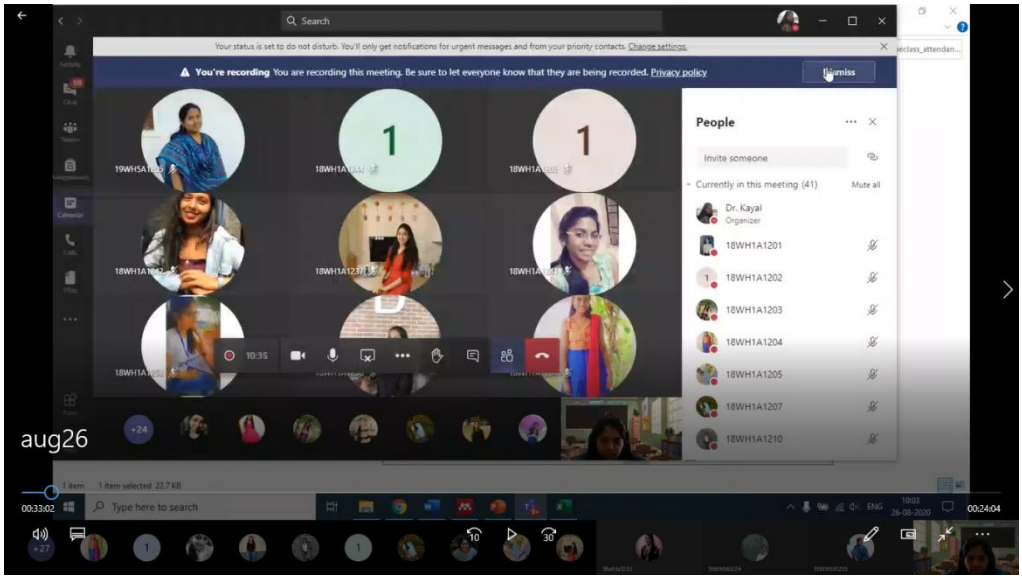

Name of the Activity: Kahoot

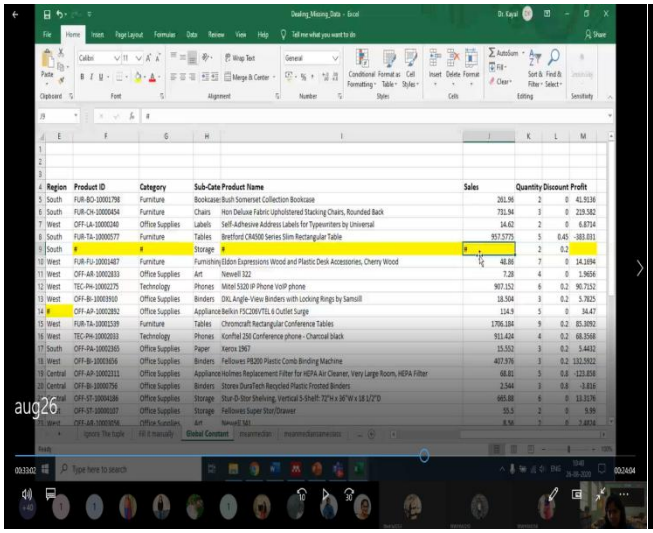

Subject Name	: Data Analytics
Faculty Name	: Dr.P.Kayal
Topic	: Unit -I
Date of Conduction	: 15/09/2020
Class / Year / Semester	: III - IT / 2020-21 / I Sem

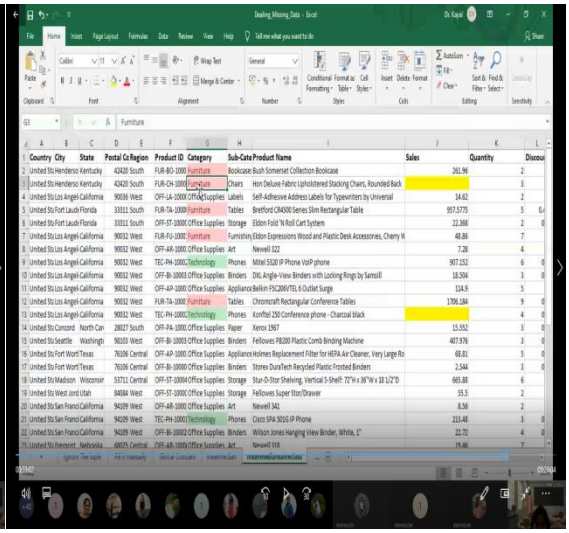

Brief Write-up :

Data Analytics using real time data was taught and students were advised to handle missing data practically instead of learning theoretical concepts. They were given with a dataset and asked to do data munching during the class. Later they have submitted their work in the LMS platform. Around 52 students attended the class.

Faculty Name : S.Rama Devi
Topic : Android Project
Date of Conduction : 20/02/2021
Class / Year / Semester : IV IT / 2020-2021 / I Sem

Brief Write-up:

Breakout Rooms can be achieved in Google Meet with a bit of preparation. Students can be in various Google Meet rooms which a teacher can participate and monitor.

1. Created a Google Doc to hold the hyperlinks of your Breakout Rooms
2. Created names for the rooms
3. Created random characters to be the "nicknames"
4. Place https://meet.google.com/lookup/ before each of the random characters
   - This works to create and link nickname style meets
5. Linked the room names to each meet link just created
6. When rooms are ready for the meet open each link and join. Mute your microphone as you do
7. Use an extension like Mute Tab to mute the joined breakout rooms
8. Announce the Breakout Room document in Classroom when ready
9. After the discussion students would join the main room to discuss their work

Subject Name	: Programming for Problem solving
Faculty Name	: A.Rajashekar Reddy
Topic	**:** PPS Glossary and keywords
Date of Conduction	**:** 15/02/2021
Class / Year / Semester	: II- IT / 2020-21 / II Sem

Brief Write-up

Activity based teaching and learning has great influence for First year students. It has been proved many occasions in the past. The Activity Tech Dumbcherades is just like normal fun based dumbcherades that we play in daily life. In this activity, first students are divided into teams each consist of 4 people.50 students are divided into 12 teams.12 Important terms from the topic are chosen,each group is called to act based on the word. The other teams have to answer.It takes 40-45 min time. It is fun filled activity which enables greater understanding of the important concepts of the subject. This activity can achieve Enhanced understanding levels of students, High level class room attention.
